what began as a solution for transportation has evolved into a desire for speed luxury personal expression and freedom for many the thrill of the drive has eclipsed the pure utility of the automobile and the pursuit of that thrill is the driving force behind 365 cars you must drive from the ford model t to the porsche carrera gt there are certain cars that any self respecting auto enthusiast just has to know and experience from the driver s seat with homage to the greatest cars and good natured mockery of the strangest authors matt stone and john matras detail which cars to drive and why how to get behind the wheel where to drive them and who to invite along for the ride each entry contains a colorful spec box noting the car s claim to fame a did you know factoid the author s clever suggestions for the perfect passenger and the soundtrack coming out of the speakers behind the wheel notes and a perfect drive for the marque or model covered engine details production information the price when it debuted and the collectible price now all of it adds up to at a glance fun reading to go with informative essays on each car archival and full color photos and more see motorbooks author matt stone interviewed by jay leno on jaylenosgarage com jaylenosgarage com video jays book club matt stone 1164286

everything around us is designed and the word design has become part of our everyday experience but how much do we know about it fifty cars that changed the world

imparts that knowledge listing the top 50 cars that have made a substantial impact in the world of british design today from the 1908 ford model t to the 1998 smart car each entry offers a short appraisal to explore what has made their iconic status to give them a special place in design history

this book reflects the move in human computer interaction studies from standard usability concerns towards a wider set of problems to do with fun enjoyment aesthetics and the experience of use traditionally hci has been concerned with work and task based applications but as digital technologies proliferate in the home fun becomes an important issue there is an established body of knowledge and a range of techniques and methods for making products and interfaces usable but far less is known about how to make them enjoyable perhaps in the future there will be a body of knowledge and a set of techniques for assessing the pleasure of interaction that will be as thorough as those that currently assess usability this book is a first step towards that it brings together a range of researchers from academia and industry to provide answers contributors include alan dix jacob nielsen and mary beth rosson as well as a number of other researchers from academia and industry

he comes he sees he plays with the gadgets

since the mid 1980s or even earlier the global economy has continuously been plagued by one energy and food crisis or another the ups and downs of the energy industry and market buoy and bubble along with food commodity prices every slight movement backwards or forward of crude features impacts food commodity prices on which the poor as well as the rich depend on for survival this umbilical link between oil prices and food prices tortures our swelling populations especially those in poor underdeveloped countries lasting solutions to oil and food prices is a bold attempt to address permanent solutions to this appalling situation more ideas are needed and much more bolder action we must tackle these perpetual oil and food problems our populations keep increasing many teeming mouths to feed your contribution is welcome thanks

the automobile has brought about changes to the landscape that are nothing short of revolutionary the dramatic reconfiguration of cities and the countryside to accommodate our taste for freedom of movement has been matched by a change in the way buildings themselves have been planned today caad and car building techniques have opened up new possibilities for architectural design and this book edited by the london based architect alex de rijke argues that the influence of the car on architectural and urban thinking is greater than ever de rijke's selection of ideas photographs texts and completed projects by a variety of architects explores the parallel development of cars and architecture during the second half of the twentieth century and provides a compelling manifesto for the future of building design
