languages consist of a wide variety of interesting elements many of which have not yet been fully described or explored in this book written by experts in hebrew and greek various elements of the hebrew and especially greek languages are described and

analyzed for their possible theoretical and practical implications for exegesis of the bible the topics range from the various linguistic theories used within biblical linguistics to focused studies upon syntactical markers nominal elements the various functions of language and register studies specialists will discover challenging studies and interested explorers will be challenged to learn more about ancient hebrew and greek

jenny read heimerdinger examines the language of luke acts exploring aspects of luke s use of greek that traditional approaches have not generally accounted for previously drawing on contemporary developments in linguistics broadly referred to as discourse analysis read heimerdinger emphasises that paying close attention to the context of language is vital to understanding the reasons behind an author s choices read heimerdinger applies the tools of discourse analysis to several features of luke s greek such as variation in word order the use of the article and fine distinctions between synonyms in order to demonstrate how principles that govern their use subsequently affect exegesis in addition she makes suggestions to account for manuscript variation which in turn have an impact on the editorial choices of nestle aland s greek new testament

a selection of some 30 essays by the late new testament scholar willem vorster dealing with methodological issues in new testament scholarship including discussion of reader response narratology and the historical jesus

this third volume like its predecessors adds to the growing body of literature concerned with the history of biblical interpretation with eighteen essays on nineteen biblical interpreters volume 3 expands the scope of scholars both traditional and modern covered in this now multivolume series each chapter provides a biographical sketch of its respective scholar s an overview of their major contributions to the field explanations of their theoretical and methodological approaches to interpretation and evaluations and applications of their methods by focusing on the contexts in which these scholars lived and worked these essays show what defining features qualify these scholars as pillars in the history of biblical interpretation while identifying a scholar as a pillar is somewhat subjective this volume defines a pillar as one who has made a distinctive contribution by using and exemplifying a clear method that has pushed the discipline forward at least within a given context and time period this volume is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the field of biblical studies has developed and how certain interpreters have played a formative role in that development

john dobson has a world wide reputation as a highly respected and successful teacher of new testament greek this course has been taught to groups ranging in size from a few people to over one hundred students language students as well as those who have never

studied a foreign language before english speakers as well as those for whom english is a second language the material can be used with equal ease in an intensive six week course a regular academic language programme a part time extension module self study possibly with a mentor to develop his innovative and highly effective teaching method john dobson has applied the latest research findings on how people learn this third edition of learn new testament greek has been revised and updated to include an accented text it is a complete student textbook as well as a comprehensive resource for teachers

this first year greek textbook discusses all the forms and basic syntax of koine greek complete with extensive paradigms examples and explanations from publisher description
