the vital resource for grading all assignments from the advanced pre med studies course which includes the fascinating history of medicine providing students with a healthy dose of facts mini biographies and vintage illustrations insight into how germs are

symptomatic of the literal fall and curse of creation as a result of man's sin and the hope we have in the coming of Jesus Christ. Overview from surgery to vaccines, man has made great strides in the field of medicine; quality of life has improved dramatically in the last few decades alone, and the future is bright. But students must not forget that God provided humans with minds and resources to bring about these advances. A biblical perspective of healing and the use of medicine provides the best foundation for treating diseases and injury. The evolutionary worldview can be found filtered through every topic at every age level in our society; it has become the overwhelmingly accepted paradigm for the origins of life as taught in all secular institutions. This dynamic course helps young people not only learn science from a biblical perspective but also helps them know how to defend their faith in the process. Features: the calendar provides lesson planning with clear objectives, and the worksheets and quizzes are all based on the materials provided for the course.

**Introduction to Ocean and Ecology Course Description** This is the suggested course sequence that allows one core area of science to be studied per semester. You can change the sequence of the semesters per the needs or interests of your student. Materials for each semester are independent of one another to allow flexibility.

**Semester 1: Oceans** The oceans may well be Earth's final frontier. These dark and sometimes mysterious waters cover 71 percent of the surface area of the globe and have yet to be fully explored. Under the waves, a watery world of frail splendor, foreboding creatures and sights beyond imagination awaits. The ocean book will teach you about giant squid and other monsters of the seas, centuries of ocean exploration, hydrothermal vents, the ingredients that make up the ocean, harnessing the ocean's energy, icebergs, coral reefs, ships, submarines, and other ocean vessels, the major ocean currents, El Niño, whirlpools, and hurricanes, harvesting the ocean's resources, whales, dolphins, fish, and other sea creatures. Learning about the oceans and their hidden contents can be exciting and rewarding. The abundance and diversity of life, the wealth of resources, and the simple mysteries there have intrigued explorers and scientists for centuries. A better understanding of our oceans ensures careful conservation of their grandeur and beauty for future generations and leads to a deeper respect for the delicate balance of life on planet Earth.

**Semester 2: Ecology** Study the relationship between living organisms and our place in God's wondrous creation. Learn important words and concepts from different habitats around the world to mutual symbiosis as a product of the relational character of God. This is a powerful biology-focused course specially designed for multi-age teaching. Students will study the intricate relationship between living organisms and our place in God's wondrous creation, examine important words and concepts from different habitats around the world, to our stewardship of the world's resources, gain insight into influential scientists and their work, more fully understand practical aspects of stewardship, investigate ecological interactions and connections in creation. The ecology book encourages an

understanding of a world designed not as a series of random evolutionary accidents but instead as a wondrous well designed system of life around the globe created to enrich and support its different features activities provide additional ways to make the learning experience practical

advanced pre med studies course description semester 1 from surgery to vaccines man has made great strides in the field of medicine quality of life has improved dramatically in the last few decades alone and the future is bright but students must not forget that god provided humans with minds and resources to bring about these advances a biblical perspective of healing and the use of medicine provides the best foundation for treating diseases and injury in exploring the history of medicine author john hudson tiner reveals the spectacular discoveries that started with men and women who used their abilities to better mankind and give glory to god the fascinating history of medicine comes alive in this book providing students with a healthy dose of facts mini biographies and vintage illustrations it seems that a new and more terrible disease is touted on the news almost daily the spread of these scary diseases from bird flu to sars to aids is a cause for concern and leads to questions such as where did all these germs come from and how do they fit into a biblical world view what kind of function did these microbes have before the fall does antibiotic resistance in bacteria prove evolution how can something so small have such a huge deadly impact on the world around us professor alan gillen sheds light on these and many other questions in the genesis of germs he shows how these constantly mutating diseases are proof for devolution rather than evolution and how all of these germs fit into a biblical world view dr gillen shows how germs are symptomatic of the literal fall and curse of creation as a result of man s sin and the hope we have in the coming of jesus christ semester 2 body by design defines the basic anatomy and physiology in each of 11 body systems from a creationist viewpoint every chapter explores the wonder beauty and creation of the human body giving evidence for creation while exposing faulty evolutionist reasoning special explorations into each body system look closely at disease aspects current events and discoveries while profiling the classic and contemporary scientists and physicians who have made remarkable breakthroughs in studies of the different areas of the human body within building blocks in life science you will discover exceptional insights and clarity to patterns of order in living things including the promise of healing and new birth in christ study numerous ways to refute the evolutionary worldview that life simply evolved by chance over millions of years the evolutionary worldview can be found filtered through every topic at every age level in our society it has become the overwhelmingly accepted paradigm for the origins of life as taught in all secular institutions this dynamic education resource helps young people not only learn science from a biblical perspective but also helps them know how to defend their faith in the process

the vital resource for grading all assignments from the cultural issues creation evolution and the bible course which includes learning answers information and strategies when facing destructive influences found in the workplace or school environments studying fossils the age of the earth the beginning of life and more in these two volumes focused on points of contention related to the bible faith and science overview this curriculum has been put together to provide the answers to many common objections to biblical worldviews and scriptural authority of the bible practical tests are included to strengthen the student's grasp of key concepts and terms while providing critical thinking opportunities to put their knowledge to work students will learn to apply the biblical worldview to subjects such as evolution carbon dating noah's ark and the flood and dozens more they will discover answers to help know the depths of god's wisdom found in his word and in his world and why this matters to your life your family and your faith features the calendar provides lesson planning with clear objectives and the worksheets and tests are all based on the materials provided for the course
