the asia pacific region needs to maximize the benefits of education to enable it to compete in an economic future dominated by innovation in which assessing student progress must be an empowering rather than delimiting factor this detailed exposition of the theoretical basis and application tools of self directed learning oriented assessment sloa reflects the very latest research championed by the assessment research centre at the hong kong institute of education

featuring a range of relevant case studies it explores the varied theoretical issues related to sloa and offers an integrated view of the system fully in line with the constructivist paradigm of learning which advocates formative rather than summative assessment many of the initiatives outlined here are firsts in the region sloa is already being applied in many schools with links to the arc it is an approach to assessment that acknowledges the centrality of self directed learning and which positions assessment as a tool to enable and enhance self directed learning it draws on several theories of learning and assessment including the constructivist notion that learning is best achieved when students take ownership of their educational process setting their own goals and monitoring their own progress towards those goals sloa has been the research and service approach of the arc since 2005 in the intervening years the centre has developed a number of tools to facilitate sloa learning and assessment including vertical ability scales teacher friendly computer software and packages for self directed learning

this study guide will be a reliable support and easy to use source of information for students in the fields of dosimetry physics radiation oncology and therapy as they progress through the educational levels in preparation for board examinations the theoretical and practical knowledge gained by students on previous courses or in clinical settings is reinforced by means of almost 1200 questions and accompanying detailed analytical answers in order to cater for the needs of all students the questions are arranged according to three levels of difficulty the level 1 questions are mainly intended for those hoping to pass the medical dosimetrist certification board mdcb exam but will also be beneficial for medical physics candidates taking written exams and for radiation oncology residents the level ii questions are in general clinically related and will be relevant for any student while the level iii questions are advanced and are especially suitable for american board of radiology candidates or those taking equivalent exams elsewhere in the world the study guide is broken down into different subject areas with provision of multiple questions and answers on each subject in addition the mathematical and physics questions include brief explanations of how the student can solve each problem at the end of the guide three practice tests are included with the same number of questions as are found in the mdcb exam these tests will help students to test their knowledge and improve their test taking speed

q a is alzheimer s disease hereditary are there memory exercises i should be doing now is all dementia alzheimer s or are there other forms how do i make time for both my parent with alzheimer s and my children how long can someone live with this disease all caregivers and families touched by alzheimer s and dementia face a seemingly overwhelming number of emotional decisions the alzheimer s answer book serves as a much needed resource for you in this difficult time and is full of the sound advice and immediate guidance you need written by an experienced doctor who began his career as a geriatric psychiatrist the alzheimer s answer book covers such topics as what are the causes of alzheimer s and dementia what preparations do i need to make immediately after diagnosis are there medications available that help slow the progress of the disease how can i tell if my parent is in pain how can i avoid caregiver burnout when i m constantly caring for a parent where can i find resources and support in my community what are the differences between medicare and medicaid and how do i know what insurance will and will not cover written in an easy to read q a format the alzheimer s answer book explains confusing medical lingo and provides straightforward answers to all of your most pressing questions
