100 blank extra-large tear-out canvases give you more space to brainstorm and strategize. Millions of people use the Business Model Canvas and the Value Proposition Canvas to clearly understand customers, create better products, and grow businesses. This supplement to the bestselling books Business Model Generation and Value Proposition Design gives you more space to scribble, brainstorm, and move sticky notes with 50 blank extra-large tear-out Business Model Canvases (15 x 11" or 38cm x 28cm) and 50 blank extra-large tear-out Value Proposition Canvases (15 x 11" or 38cm x 28cm). The large format makes it easier to keep the creative ideas flowing, be inspired, and share your work with others. In addition to the 100 blank canvases, the two sample learning canvases provide trigger questions to help you learn to use each box in the canvas and jump-start progress. Whether you're chasing down a game-changing business model or working to evaluate and refresh an old one, the highly visual, spacious design makes it easy to use the powerful centerpiece tool in Business Model Generation to lead your product, brand, or company into the next stage of growth. If you need space to think hard about your value proposition, the 50 blank Value Proposition Canvases will help you create products and services that perfectly match your customers' needs and desires. When business conversations become mired in hunches and intuitions, or you're haunted by that expensive new product launch that flopped, these canvases offer a quick way to raise the collective intelligence of your team. Tear out a blank canvas and design a powerful visual business model or value proposition based on the global bestsellers Business Model Generation and Value Proposition Design. These transformational business tools have proven themselves at all types of companies, from start-ups to such large organizations as Mastercard, 3M, Coca-Cola, GE, Fujitsu, LEGO, and Philips.

Practical Management for the Digital Age is an innovative introductory management textbook that shows the sweeping impact of information technology on the business world. At the same time, it addresses the pressing issue of how environmental aspects are interwoven with management decisions. This book forms an academically rigorous, accurate, and accessible first exposure to a topic that often challenges novices with competing definitions, inconsistent use of terminology, methodological variety, and conceptual fuzziness. It has been written for readers with little or no prior knowledge of management and is compact enough to be read cover to cover over the course of a semester. Features of this book provide a broad, self-contained treatment of management for those without prior knowledge of management or commerce, emphasizing core ideas that every manager should know. It establishes the context of modern management by characterizing the nature of the private enterprise, the economic theory of the firm, the economics of digitalization and automation, processes of innovation, and life cycle thinking. It introduces readers to various activities of

managing including business modeling new business formation operations management managing people marketing and the management of quality and risk provides practical introductions to broadly applied management techniques including financial planning financial analysis evaluating flows of money and planning and monitoring projects this book is aimed at a wide range of undergraduate and postgraduate students in a variety of disciplines as well as practitioners it will be especially useful to those in the fields of engineering science computer science medicine pharmacy social sciences and more it will help student readers engage confidently with project work in the final parts of their degree courses and most importantly with managerial situations later in their careers for instructors who may not have a management background this book offers content for a self contained year long course in management at the intermediate undergraduate level in addition it has been developed for undergraduate and postgraduate courses with accreditation requirements that include a taught element in management such as the uk engineering council s accreditation of higher education ahep framework
