gain the knowledge and skills you need to provide psychiatric mental health nursing care in Canada. *Varcarolis's Canadian Psychiatric Mental Health Nursing* 3rd edition uses a practical clinical perspective to provide a clear understanding of this often intimidating subject. It provides a foundation in nursing techniques and a guide to psychobiological disorders such as bipolar and depressive disorders, trauma, interventions, and interventions for distinct populations such as children and older adults, adapted to meet the needs of Canadian nurses. By Cheryl L. Pollard and Sonya L. Jakubec, this market-leading text prepares you for practice with real-world examples presented within a Canadian legal, ethical, and cultural context. Canadian focus throughout includes key considerations such as our nation's cultural and social diversity, with federal/provincial/territorial distinctions. Canadian research and statistics reflect mental health and mental health practice in Canada. Research highlight boxes are updated with examples of Indigenous research methodologies by Indigenous researchers and settler allies. DSM-5 boxes provide criteria for disorders covered by the American Psychological Association. Learning features include key terms and concepts, learning objectives, key points to remember, critical thinking, and chapter reviews reinforcing important information and helping to apply textbook content to the clinical setting. Assessment guidelines boxes summarize the steps of patient assessment for various disorders. Drug treatment boxes feature the most current generic and trade names for drugs used in Canada. Patient and family teaching boxes provide important details that should be discussed with patients and care givers. Integrative therapy boxes highlight the different types of therapy that may be used to enhance treatment, considering culture. Boxes discuss the importance of cultural safety in providing competent care to diverse populations within various clinical situations. New safety tip boxes highlight important issues of safety for psychiatric mental health care, patient experiences, and nursing interventions. New added mental health content covers Indigenous populations, migrant populations, and gender differences, with a focus on cultural safety, equity, informed approaches, relational, and trauma-informed practices. Updated Chapter 29 covers recovery, survivorship, and public mental health approaches. Enhanced topics include substance use disorders, harm reduction, and support among nurses. Changes related to medical assistance in dying, paid legislation, and mental health in view of climate change and the COVID-19 pandemic.

This handy pocket guide is designed to assist in the assessment of psychiatric nursing clients, the formulation of nursing diagnoses, and the design of psychiatric nursing care plans. The book contains practical, clinically oriented information that students can carry with them as they visit the inpatient unit, community mental health setting, or home care setting. It is also an excellent resource for the new graduate and/or practicing nurse. Effectively covers all major disorders commonly

encountered in the clinical setting includes assessment guidelines with signs and symptoms assessment tools and questions nurses should ask clients for each disorder each care plan begins with a nursing diagnosis and includes related to etiology as evidenced by assessment findings diagnostic cues outcome criteria long term goals short term goals and interventions and rationales integrates psychopharmacology information for each disorder features client and family teaching boxes for easy reference and to ensure clear communication of the required care regimen nurse client and family resources include website addresses association information and additional resources for client teaching material medication information and support groups the new two color design improves readability and overall design revised chapter design presents sections consistently and makes essential information easier to identify includes the most recent information in the field including the dsm iv tr taxonomy and 2003 2004 nanda nursing diagnoses a new chapter major psychotropic interventions and client family teaching provides coverage of psychopharmacology in addition to the content found in each disorder chapter drug tables in select chapters provide rapid access to psychotropic drug information dsm iv tr headings highlight medical diagnosis revised and expanded client outcome sections include additional outcome criteria long term goals and short term goals for each diagnosis additional content on forensic issues in psychiatric nursing is integrated throughout where appropriate assessment tools are now grouped in appendix d for easier reference assessment tools are referred to in the text where appropriate a helpful appendix of drug monographs features the most commonly prescribed psychiatric medications focuses on practical clinical information for providing client care in the inpatient unit community mental health setting or home care setting user friendly format allows for quick and easy access to information
