handbook for disruptors
eric schmidt the geek way reveals a new way to
get big things done it will change the way you think about work teams
projects and culture and give you the insight and tools you need to
harness our human superpowers of learning and cooperation what is
being geeky it s being a perennially curious person one who s not
afraid to tackle hard problems and embrace unconventional solutions
mcafee shows how the geeks have created a new culture based around
four norms science ownership speed and openness the geek way seems odd

at first it's not deferential to experts fond of planning and process afraid of mistakes or obsessed with winning but it explains everything from why montessori babies turn out to be creative tinkerers to how newcomers are disrupting industry after industry and still just getting started when all four norms are in place a culture emerges that is freewheeling fast moving egalitarian evidence driven argumentative and autonomous why does the geek way work so much better mcafee provides an original answer because it taps into humanity's superpower which is our ability to cooperate intensely and learn rapidly by providing insights from the young discipline of cultural evolution mcafee shows that when we come together under the right conditions we quickly figure out how to build reusable spaceships and self correcting organizations under the wrong conditions though we create bureaucracy chronic delays cultures of silence and the other classic dysfunctions of the industrial era mixing cutting edge science history analysis and stories that show the geek way in action mcafee offers a new way to see the world and empowering tools for seizing the big opportunities of today and tomorrow

in entrepreneurs and capitalism since luther rediscovering the moral economy ivan light and léo paul dana study the history of business capitalism and entrepreneurship to examine the values of social and cultural capital six chapters evaluate case studies that illustrate contrasting relationships between social networks vocational culture and entrepreneurship light and dana argue that in capitalism's early stages cultural capital is scarcer than social capital and therefore more crucial for business owners conversely when capitalism is well established social capital is scarcer than cultural capital and becomes more crucial light and dana then trace moral legitimations of capitalism from the reformation to the enlightenment the gilded age and finally to joseph schumpeter whose concept of creative destruction freed elite entrepreneurs from moral restraints that encumber small business owners after examining the availability of social and cultural capital in the contemporary united states light and dana show that business owners social capital enforces conventional morality in markets facilitating commerce and legitimating small businesses the old fashioned way as their networks become more isolated elite entrepreneurs must claim and ultimately deliver successful results to earn public toleration of immoral or predatory conduct

as tech giants and startups disrupt every market those who master large scale software delivery will define the economic landscape of the 21st century just as the masters of mass production defined the landscape in the 20th unfortunately business and technology leaders are woefully ill equipped to solve the problems posed by digital

transformation at the current rate of disruption half of s p 500 companies will be replaced in the next ten years a new approach is needed in project to product value stream network pioneer and technology business leader dr mik kersten introduces the flow framework a new way of seeing measuring and managing software delivery the flow framework will enable your company s evolution from project oriented dinosaur to product centric innovator that thrives in the age of software if you re driving your organization s transformation at any level this is the book for you

becoming a good relative weaves the author s personal story of transformation with historical research spiritual teachings and an appendix of practical skills resources and rituals giovale offers warm compassionate and vulnerable personal stories to reveal how unlearning fragility becoming antiracist and repairing ancestral harm can feel she invites readers beyond intellectual analysis into intuition dreams and practical rituals these practices can transform the harms of colonialism racial hierarchy and economic inequity from the inside out while written as a memoir this book gives readers practical tools for building their own resilience and committing to reparations for the long term this book is for white people who are curious about moving beyond white fragility and into robust healing it speaks to the tiktok users who have viewed videos on decolonization 14 million times it also addresses the philanthropic sector which has increased its overall giving by 41 since 2019 along with regular americans substantial donations and is seeking inspiration to direct more funding to communities of color

first book to combine financial results with proprietary benchmarking data and in depth interviews with experienced knowledge practitioners the resulting framework provides an inside and outside the firm view of the risks and opportunities found in knowledge management and competitive intelligence

this book addresses a question of importance for both theory and practice why are joint venture agreements preferred over other types of agreements such as concession agreements service contracts and production sharing agreements in the qatari gas industry on a theoretical level the author analyses this decision making process by developing an approach that integrates a micro level analysis more specifically within international oil companies with a macro level analysis that spring from the organisational culture of the qatari gas industry at the micro level the author proposes john dunning s eclectic paradigm as one set of theoretical ideas to explaining one element of the decision making process leading to the preference for

joint venture agreements that is that of international oil companies at the macro level the author proposes antony giddens structuration theory as another set of theoretical ideas to explaining another part of this decision making process that is how it is being shaped by the organisational culture of the qatari gas industry on an empirical level the proposed book applies a combination of a micro economic approach such as dunning s eclectic paradigm with a macro sociological approach such as giddens structuration theory by empirical investigation grounded on a qualitative strategy that focuses on the meaning making which brings together different perspectives of this decision making process including those of international oil companies and the organisational culture of the qatari gas industry the proposed book utilises a case study design named the case of the qatari gas industry the author employs a triangulation of data collection techniques to access empirical data analysing official documents and semi structured interviews a sample of the interview questions are included in an appendix to the proposed books in line with the qualitative nature of this proposed book a thematic analysis is adopted to interpret data based on dunning s eclectic paradigm at the micro level and giddens structuration theory at the macro level in doing so this book connects theory with practice by investigating the preference for joint venture agreements in the case of the qatari industry by the combined application of one of the most effective frameworks for explaining foreign direct investment named dunning s eclectic paradigm along with the most complex sociological framework that offers a rich definition of organisational culture named giddens structuration theory audience could include academics professionals and graduate and senior undergraduate students
