post the financial crash the role of regulation and the impact of regulation on all aspects of the financial industry has broadened and intensified this book offers a comprehensive review of the operations of the industry post financial crisis from a variety of perspectives this new edition builds upon the authors predecessor book fundamentals of investment an irish perspective the core of the original text is retained particularly concerning fundamental concepts such as discounted cash flow valuation techniques changes in this new text are driven by two important factors first the long shadow of the global financial crisis and the ensuing great recession continues to impact economies and financial markets second the new text adopts a more international perspective with a focus on the uk and ireland the authors present the reader with a clear linkage between investment theory and concepts the fundamentals and the practical application of these concepts to the financial planning and advisory process this practical perspective is driven by the decades long fund management and stockbroking experience of the authors investment knowledge is a core competence required by large numbers of organisations and individuals in the financial services industry this new edition will be an invaluable resource for financial advisers financial planners and those engaged in advisory and or support functions across the investment industry those taking investment modules in third level educational institutes will find this book to be a useful complement to the more academically focused textbooks

the complete body of knowledge for cima candidates and professionals the 2015 certified investment management analyst body of knowledge test bank will help any financial advisor prepare for and pass the cima exam and includes key information and preparation for those preparing to take the test cima professionals integrate a complex body of investment knowledge ethically contributing to prudent investment decisions by providing objective advice and guidance to individual and institutional investors the cima certification program is the only credential designed specifically for financial professionals who want to attain a level of competency as an advanced investment consultant having the cima designation has led to more satisfied careers better compensation and management of more assets for higher net worth clients than other advisors the book is laid out based on

the six domains covered on the exam i governance ii fundamentals statistics finance economics iii portfolio performance and risk measurements iv traditional and alternative investments v portfolio theory and behavioral finance vi investment consulting process

international investment law is in a state of evolution with the advent of investor state arbitration in the latter part of the twentieth century and its exponential growth over the last decade new levels of complexity uncertainty and substantive expansion are emerging states continue to enter into investment treaties and the number of investor state arbitration claims continues to rise at the same time the various participants in investment treaty arbitration are faced with increasingly difficult issues concerning the fundamental character of the investment treaty regime the role of the actors in international investment law the new significance of procedure in the settlement of disputes and the emergence of cross cutting issues bringing together established scholars and practitioners as well as members of a new generation of international investment lawyers this volume examines these developments and provides a balanced assessment of the challenges being faced in the field

this book covers china s practice in the past 20 years in four areas china s practice in investment treaty conclusion china s practice in the development of investment treaty china s practice in the investment dispute settlement and china s belt and road initiative and international investment law being a major capital import and export country china has rich experience in international investment law including treaty conclusion and isds practice china is also active in participating the currently undergoing isds reform china s belt and road initiative has implications for the development of international investment law this book is good for graduates researchers governmental officials and practitioners in investment law area

this review identifies a broad range of funds targeting agriculture in developing and transitioning countries it classifies them according to geographic distribution capital shareholder and investor base investment instruments and financial performance among other criteria

the current framework of eu regulation concerning capital markets is complex and partly inconsistent in the way that it is applied in the various member states through the capital markets union cmu project the european union is pursuing the goal of establishing a true single market for capital in europe regulating eu capital markets union fundamentals of a european code is the first of a two volume series proposing the codification of eu legislature as a way to establish this goal this book analyses all existing capital markets regulation it explains the idea of codification looks at the added value of a european capital markets code discusses key concepts of the current regimes and elaborates on the goals of the future codification act the work explores the idea that the provisions spread over numerous rulebooks should be brought together in a single legal act in the form of a regulation and organized in a systematic way to reduce complexity thereby facilitating accessibility of capital markets law drawing on the experience of academics from various european countries this volume discusses possible contents of a european capital markets code addresses approaches to regulatory reforms and explores the role of private enforcement

the insurance industry has found itself at the front line of climate change challenges providing insurance cover in relation to risks associated with climate change as risk carriers insurers pay claims for climate change related losses such as property damage caused by windstorms flooding and wildfires which have been increasing in frequency and severity as major institutional investors insurance companies invest in assets that may be increasingly vulnerable to climate risks insurance regulators across the globe have therefore started to require insurance companies to identify manage and report on climate change risks that could pose a threat to their financial stability however managing and reporting on the effect of climate risk on an insurer s balance sheet is an inward looking perspective that does not stem climate change it needs to be paired with an outward looking perspective that takes account of the insurance industry s impact on the environment and the insurance industry s capacity to influence what policyholders investee enterprises and other business partners do to address climate change challenges for the insurance industry the key components of positive outward impact are impact underwriting and impact investment this book sets out the current legal and regulatory landscape for impact underwriting and impact investment whilst the focus of research and regulatory interventions to date has been on inward impact in this book it will be argued that to take positive climate action that supports the paris

agreement goals and the national and international net zero targets the debate should now move on to considering the positive outward impact the insurance industry can make and how we can create a legal environment to facilitate this the book puts forward the case for a new vision of the role of the insurance industry as climate action enablers and makes proposals for insurance products and risk transfer and loss resilience structures that can support policyholders in their transition to a net zero economy the audience for this book will include legal practitioners insurance industry professionals financial and insurance regulators policymakers and interested academics

investing with the trend provides an abundance of evidence for adapting a rules based approach to investing by offering something most avoid and that is to answer the why one would do it this way it explains the need to try to participate in the good markets and avoid the bad markets with cash being considered an asset class the book is in three primary sections and tries to leave no stone unturned in offering almost 40 years of experience in the markets part i the focus is on much of the misinformation in modern finance the inappropriate use of gaussian statistics the faulty assumptions with modern portfolio theory and a host of other examples the author attempts to explain each and offer justification for his often strong opinions part ii after a lead chapter on the merits of technical analysis the author offers detailed research into trend analysis showing how to identify if a market is trending or not and how to measure it further research involves the concept of drawdown which the author adamantly states is a better measure of investor risk than the oft used and terribly wrong use of volatility as determined by standard deviation part iii this is where he puts it all together and shows the reader all of the steps and details on how to create a rules based trend following investment strategy a solid disciplined strategy consists of three parts a measure of what the market is actually doing a set of rules and guidelines to tell you how to invest based upon that measurement and the discipline to follow the strategy
