Gene function in schistosomes: recent advances towards a cure *The Venus Factor Arnon Dias Jurberg Vic Ghidalia*

Schistosomes are human parasites distributed worldwide in tropical and sub tropical latitudes especially in developing countries and impoverished regions. These neglected tropical disease (NTD) pathogens cause debilitating illnesses which include hepatosplenomegaly, hepatic fibrosis, haemorrhagic necrotic ulcerations in the intestinal mucosa, urogenital tract diseases in addition to cardiopulmonary, renal and neurologic lesions due to egg accumulation in the liver, intestines, urogenital tissues and other sites. Urogenital schistosomiasis is a risk factor for bladder cancer and increases the risk of transmission of HIV infection. Despite extensive effort to control this NTD over the years, deployment on a considerable scale of commercially available drugs in endemic populations has induced the emergence of resistant isolates and raised the need to identify new targets for alternative therapies. Because of the availability of genomes of the three major species of human schistosomiasis and through advances in functional genomics and live imaging studies on schistosomes, they have now come into focus as models to investigate adaptations to parasitism and developmental biology of trematodes and cestodes and indeed flatworms and lophotrochozoans. At large, this research topic aims at gathering state of art essays on schistosome genetics, pathobiology and immunobiology. It also aims to highlight advances in understanding of the host-parasite relationship in paradigms that address this NTD and to discuss new perspectives and advances in chemotherapy and immunoprophylaxis.

Getting the books **Venus Factor** now is not type of challenging means. You could not isolated going afterward books heap or library or borrowing from your friends to approach them. This is an definitely simple means to specifically get guide by on-line. This online publication Venus Factor can be one of the options to accompany you in the manner of having new time.
