from the end of georgia s white primary in 1946 to the present atlanta has been a community of growing black electoral strength and stable white economic power yet the ballot box and investment money never became opposing weapons in a battle for domination instead atlanta experienced the emergence and evolution of a biracial coalition although beset by changing conditions and significant cost pressures this

coalition has remained intact at critical junctures forces of cooperation overcame antagonisms of race and ideology while retaining a critical distance from rational choice theory author clarence stone finds the problem of collective action to be centrally important the urban condition in america is one of weak and diffuse authority and this situation favors any group that can act cohesively and control a substantial body of resources those endowed with a capacity to promote cooperation can attract allies and overcome oppositional forces on the negative side of the political ledger atlanta s style of civic cooperation is achieved at a cost despite an ambitious program of physical redevelopment the city is second only to newark new jersey in the poverty rate social problems conflict of interest issues and inattention to the production potential of a large lower class bespeak a regime unable to address a wide range of human needs no simple matter of elite domination it is a matter of governing arrangements built out of selective incentives and inside deal making such arrangements can serve only limited purposes the capacity of urban regimes to bring about elaborate forms of physical redevelopment should not blind us to their incapacity to address deeply rooted social problems stone takes the historical approach seriously the flow of events enables us to see how some groups deploy their resource advantages to fashion governing arrangements to their liking but no one enjoys a completely free hand some arrangements are more workable than others stone s theory minded analysis of key events enables us to ask why and what else might be done regime politics offers readers a political history of postwar atlanta and an elegant innovative and incisive conceptual framework destined to influence the way urban politics is studied

duffy s work traces nuclear politics from the creation of a powerful subgovernment through the public lobby reforms of the late 1960s and early 1970s and the deregulatory backlash of the reagan years he demonstrates that while policies did change in the 1970s they did not change as much as other accounts have suggested and that the industry continued to receive considerable federal support the book is particularly significant for extending the discussion of nuclear policy through the bush and clinton years including the controversy over waste disposal new licensing procedures enacted in the 1992 amendments to the atomic energy act and the effects of deregulation of electric utilities amazon com viewed august 24 2020

in twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved the approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead

for years mainstream feminist ethics focused criticism on male supremacy feminist

philosophers in this volume adopt a less male focused stance to look closely at oppression's impact on women's agency and on women's relations with women examining legal social and physical relationships these philosophers confront moral ambiguity moral compromise and complicity in perpetuating oppression combining personal experience with philosophical inquiry they vividly portray their daily engagement with oppression as both victims and perpetrators they explore such issues as how pornography silences women and radical feminist politics complicity in racism among these insightful essays sandra bartky argues that women share guilt for racism when they benefit from it without protest susan brison reflects on uses of narrative in trauma recovery from such experiences as being targeted for rape or murder joan callahan examines fallout of derogatory speech directed at lesbians virginia held proposes carrying care into marketplaces and governments and in her introduction claudia card draws on primo levi's conception of gray zones in exploring dangers of character damage to victims of misogyny a fitting companion to card's highly regarded feminist ethics this volume interweaves observations on character political ethics violence and love into an accessible sourcebook for students it tackles some of feminism's most pressing issues and helps readers to identify and then overcome the real damage caused by oppression
