this book discusses the central role education and research play in generating both value and comparative advantages in the imageries of global competition competitiveness and transnational value chains they are seen as assets placed at the forefront of developments that are arguably reshaping individuals society and economy this edited volume explores these developments in terms of changing relations between society economy science and individuals the idea that we live in global knowledge societies and knowledge based economies or that present day productive systems constitute an industry 4 0 have gained currency as descriptions of contemporary society that are said to bear direct and indirect consequences for political economic and social orders in this context innovation science and education are central themes in contemporary discussions about the future of modern societies innovation is enthusiastically embraced as the panacea for all sorts of societal issues of our times science is equally deemed to play a decisive role in solving current problems and in heralding a bright future with more wealth and more welfare for all citizens education is conferred the task to producing individuals equipped with both skills and competences considered key to innovation but also displaying the attitudes and dispositions that will secure continuous innovation and economic growth

this book explores in a theoretical and practical sense the challenges and opportunities arising in the initial and ongoing formation processes for teachers in catholic schools it showcases a range of international perspectives on how prospective teachers for catholic schools are prepared both academically and pastorally for their professional role divided into two parts part 1 of the book focuses on certain countries in the anglosphere each country with a dedicated

chapter in which the academic and pastoral approaches to teacher formation are examined in the context of its particular cultural political and religious landscape part 2 of the book examines specific areas of interest with particular reference to what it means for the catholic church s mission to offer suitable formation to its corps of teachers building on the editors previous work this book offers a fresh perspective on this subject by bringing together observations from selected local contexts on what catholic teacher formation looks like as a set of organised processed and structures it also shows how the study of educational themes offers challenges to current practices but also opportunities for fruitful engagement with other educational perspectives

in earthen vessels daniel aleshire executive director of the association for theological schools makes the case for the future of theological education in a personal and conversational essay rather than using a historical or analytic approach aleshire uses what he terms appreciative inquiry to identify the strengths of theological education and how they can support future work in the field by describing this work and its far reaching benefits he aims to inform school board members donors administrators and faculty who may be seeking to understand the bigger picture of their institutions aleshire organizes the book into three parts the first makes the case for theological schools by describing the work they were intended to do and the contributions they make the second focuses on the nature of their work teaching learning and research finally the third describes the partners who make this work possible aleshire notes that much of the future of these schools will be framed by changes in these partners administration the church and the higher education community and the ways that schools change in response amazon com

as a movement transhumanism aims to upgrade the human body through science constantly pushing back the limits of a person by using cutting edge technologies to fix the human body and upgrade it beyond its natural abilities transhumanism

can not only change human habits but it can also change learning practices by improving human learning it improves the human organism beyond natural and biological limits the handbook of research on learning in the age of transhumanism is an essential research publication that discusses global values norms and ethics that relate to the diverse needs of learners in the digital world and addresses future priorities and needs for transhumanism the book will identify and scrutinize the needs of learners in the age of transhumanism and examine best practices for transhumanist leaders in learning featuring topics such as cybernetics pedagogy and sociology this book is ideal for educators trainers instructional designers curriculum developers professionals researchers academicians policymakers and librarians

this book brings together fifteen comprehensive studies of significant north american scholars of comparative education from the 20th century providing relevant biographical detail chapters analyse each scholar s approach to comparative education and their on going influences on the field comparative studies in education have long benefited from the work of significant individuals who have collectively advanced the field making it a vibrant and intellectually fruitful area of educational research offering a unique systematic exploration of the work of the founders of comparative educational research north american scholars of comparative education emphasizes the importance of understanding the accomplishments of key historical figures in the field and considers the legacies such individuals have created chapters move beyond descriptions of comparativists work to illustrate the pivotal role played by each scholar in driving a progression through humanistic and scientific approaches to new epistemological traditions within the field of comparative education this in turn reveals critical historical epistemological transitions which have had lasting impacts on the field including contributions written by leading scholars in the field this volume will be of great interest to researchers academics and scholars in

comparative and international education

maintaining that urban teaching and learning is characterized by many contradictions this work proposes that there is a wide range of social cultural psychological and pedagogical knowledge urban educators must possess in order to engage in effective and transformative practice it is necessary for those teaching in urban schools to be scholar practitioners rather than bureaucrats who can only follow rather than analyze understand and create ten major sections cover the myriad issues of urban education as it exists today

since the first version of this classic work was published in 1974 major events in which american journalism has played a decisive role have cast the reporter increasingly as the subject for public examination the newsman has become news though there are more serious responsible journalists today than at any time in america the less serious less responsible also have great exposure the loss of credibility of the mass media is widely acknowledged and is a considerable concern to serious journalists for not only is american policy making hampered by sensational journalism but also weakened is the philosophical foundation of a free society a society committed to maximize the freedom of well informed choice for individual citizens in a period of massification this book presents a philosophy of journalism that not only relates to a journalist s everyday activities but also deals with a broad weltanschauung for journalism which is built largely on the ideas coming out of the age of reason areas of philosophy are political philosophy and its relationship to journalism epistemological concerns□primarily journalistic objectivity and truth seeking and journalistic ethics
