the objective structured clinical examination osce has become widely employed in intensive care medicine icm exams such as the uk final fellowship of intensive care medicine fficm the european diploma of intensive care edic exam or the australia and new zealand fellowship of the college of intensive care medicine cicm this book is not only an essential tool for the rehearsal of osces in preparation for these exams but also for american and indian exams and any other exams within the field of intensive care medicine the osce is a style of examination that requires the candidate to present specific information in a short space of time matched to a prescriptive mark scheme this book allows candidates preparing for an icm osce to format their knowledge for this type of examination whilst practising and rehearsing against time the 60 osce stations provide a broad array of topics from past exams ranging across the training icm curriculums the mark schemes are presented in a short punctuated form allowing the candidate access to important points ideal at the sharp end of an exam campaign the 5 sets of osce exams are designed to run as a set of 12 each set will have an array of clinical scenarios requiring swift assessment diagnosis recommendations for investigations and management whilst also exploring aspects of pathophysiology there are a number of data interpretation tools that are incorporated into clinical scenarios as well as standalone stations for electrocardiogram and radiology analysis this book is an important preparatory tool crucial to the armamentarium of any candidate preparing for an icm exam

this book is the definitive guide to the final fellowship of the faculty of intensive care medicine fficm structured oral examination with a broad coverage of the clinical curriculum it equips candidates to tackle this challenging examination each chapter contains sample questions with concise answers focusing on key concepts to facilitate deeper understanding the content is organised by subject enabling more structured revision in an easy to use format this text provides references to guidance that will remain relevant in the ever changing landscape of intensive care medicine not only is this book an essential resource for studying intensivists but it also forms a useful reference for any professional encountering the world of critical care in their practice

the final frca structured oral examination is the last step before earning the initials frca and becoming a fellow of the royal college of anaesthetists this comprehensive revision aid has been compiled by two talented authors who have been running a course on this subject for three years motivated to make the cases as close as possible to the exam they have collected a vast database of questions from their trainees and the book reflects a variety of commonly asked themes in addition there are contributions from 11 consultants and registrars

who are all experts in their fields the clear layout and easy to read style prepares students for the examination environment and focuses on the specific areas and responses examiners look for the style of questions mimics the exam and there are added tutorials for ecg interpretation and radiology which will benefit trainees immensely in their preparation

the primary frca structured oral examination study guide 2 is the definitive revision aid to the primary frca structured oral examination this second edition is revised and updated in line with the new royal college of anaesthetists guide to the primary frca with over 20 new topics to reflect changes to the rcoa s model questions and major revisions to graphs diagrams and many of the pre existing sections packed with new guidelines and current hot topics this second volume covers pharmacology special patient groups and critical incidents in depth over 37 pharmacology topics are covered including mechanisms of drug action dose response curves drug interactions half life variations in drug metabolism opioids neuromuscular blocking drugs and more twelve special patient groups topics are covered including paediatrics elderly pregnancy diabetes hypertension and more over 20 critical incidents topics are covered including aspiration cyanosis bradycardia failed intubation st segment changes hypoxia and more the second edition of this hugely popular book is improved in clarity and content but stays true to the pragmatic approach adopted by the authors in the first edition

comprising questions and answers which simulate examination format this is an essential aid for anaesthesia trainees

this fully up to date book is designed specifically for candidates preparing for the primary frca structured oral examination incorporating the new exam structure and syllabus sample questions accurately reflect the examination while model answers are systematically structured with definitions and classifications and illustrated with essential diagrams and graphs the books provide clear and concise explanations to key scientific concepts and problem based answers to clinical scenarios this first part contains questions on physiology and physics packed with new guidelines fundamental t
