the Lloyd's Register Technical Association (LRTA) was established in 1920 with the primary objective of sharing technical expertise and knowledge within Lloyd's Register. Publications have consistently been released on a yearly basis with a brief interruption between 1938 and 1946. These publications serve as a key reference point for best practices and were initially reserved for internal use to maximise LRTA's competitive advantage. Today the LRTA takes a fresh approach focusing on collaboration by combining professional expertise from across LRF Group to ensure a frequent output of fresh perspectives and relevant content. The LRTA has evolved into a group-wide initiative that identifies, captures and shares knowledge spanning various business streams and functions to support this modern approach. The LRTA has adopted a new structure featuring representatives and senior governance across the business streams and the LRF Foundation. The Lloyd's Register Technical Association papers should be seen as historical documents representing earlier viewpoints and are not reflective of current thinking and perspectives by the current LRF Technical Association. The Lloyd's Register Staff Association (LRSA) changed its name to the Lloyd's Register Technical Association (LRTA) in 1973.

Some issues (Aug 1948 - 1954) are called 'Radio Electronic Engineering Edition' and include a separately numbered and paged section 'Radio Electronic Engineering' issued separately (Aug 1954 - May 1955).
