from the early nineteenth century onwards literally millions of people left their homes to cross the seas some like the

convicts transported to australia had no choice others like the indentured indian and chinese labourers had almost no alternative but the vast majority were driven to escape war famine or grinding poverty in europe by seeking a new life abroad whatever their circumstances and wherever their destination the one experience they all shared in common was the sea voyage this book is centred on the rite of passage that marked the transition from one life to the other tracing the story of the emigrant through a fresh look at original sources and first hand accounts from the decision to emigrate the journey to the port and the voyage itself to arrival in the new world it describes the emigrant trade the differing conditions on board sailing ships and steamers convict and coolie ships and the perils of overcrowding epidemics fire shipwreck and even cannibalism it also investigates the varied receptions emigrants were likely to face not necessarily the welcome promised the homeless tempest tossed by the statue of liberty this unprecedented population shift left few european families untouched by emigration while the present day populations of the americas and australasia are dominated by the descendants of those who made the journey this gives the emigrants story a universal interest

was the physical titanic the rusting remains of which can still be found twelve thousand feet below the north atlantic the second is the mythical titanic which emerged just as its tangible predecessor slipped from view on 15 april 1912 it is the second of the two titanics which remains the more interesting and which continues to carry cultural resonances today the myth of the titanic begins with the launching of the unsinkable ship and ends with the outbreak of the war to end all wars it provides an insight into the particular culture of late edwardian britain and beyond this draws far greater conclusions about the complex relationship between myth history popular culture and society as a whole

the truth about the titanic by colonel archibald gracie is a striking recital of the monumental shipwreck by the sole survivor of all the men passengers stationed during the loading of six or more life boats with women and children on the port side of the ship the book is written as a tribute and testimony to the heroism on the part of all concerned colonel gracie refutes many of the press reports of the disaster as for instance the captain and the first officer shooting themselves for which statement he says there is no direct testimony the story of the author s marvelous escape beggars the imagination and gives proof of a remarkable telepathic communication with his wife horrible are the scenes described and they bring vividly before you the heroism and endurance that were borne until the arrival of the carpathia some of the testimony taken before the senate committee and the british courts of inquiry is analyzed and the story of each lifeboat is given according to the testimony given and the different affidavits the part devoted to j bruce ismay s testimony will be of especial interest to readers colonel gracie s death eight months after the world s greatest marine disaster was due to the exposure and strain received at that time and the restraint is a marked feature in this vivid account of an unprecedeted ocean disasterwhich occasioned the sympathy of the world
