in today's digital era increasing numbers of youth around the world learn English outside classrooms frequently with the use of technology this timely book brings together research and theory on the increasingly common phenomenon of informal digital learning of English. It is among students of all ages and across a wide range of contexts globally by examining the positive impact of digital learning on students' reading, writing, listening, and speaking abilities as well as the unique challenges that result. Lee synthesizes research in one accessible and comprehensive volume. In this rapidly developing domain this book addresses key concepts including computer-assisted language learning, the impact on standardized assessment, and the role of classroom learning. Lee offers empirically tested activities, pedagogical recommendations, and lesson plans to engage ESL/EFL students. The research overview and practical offerings make this an ideal text for courses in TESOL, online education, language teaching, online digital learning, community and language, and applied linguistics.

Updated and expanded to 124 entries, the Cambridge Encyclopedia of Child Development remains the authoritative reference in the field.

If you're a parent who has decided to educate your children yourself, this book is the first you should buy. Washington Times: "The Well-Trained Mind" will instruct you step by step on how to give your child an academically rigorous, comprehensive education from preschool through high school, one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Jessie Wise and Susan Wise Bauer outline the classical pattern of education called the Trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school grammar stage, the middle school logic stage, and the high school rhetoric stage. Using this theory as your model, you'll be able to instruct your child in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. This newly revised edition contains completely updated ordering information for all curricula and books, new and expanded curricula recommendations, new material on using computers and distance learning resources, answers to common questions about home education, information about educational support groups, and advice on practical matters such as working with your local school board, preparing a high school transcript, and
