introduction this book was started based on my fight against a corrupt government i served on a community board and ran for several public offices the local city government and city council did not like my campaigns so i became a political target i took a lot of heat from the local government for several years with them interfering with my business and my everyday life i had to put up with their misinformation and defamatory campaigns after a couple of years of being attacked regularly i decided that i should start recording every encounter a couple of encounters is not a big deal 50 encounters start to become a big deal so i started collecting all documents to prepare for a possible suit against the city after several years of

taking heat and the government's refusal to let up I figure they were not going to go away the local government made me a political target which destroyed both my reputation and business I had put up with the city creating misinformation about me and my business I was harassed segregated and ostracized and they put me in a position that forced me to consider packing up and moving out of town or to fight back this book goes through many of the battles I went through it also goes through many of the policies that I have sent to local state and federal lawmakers to help promote change I also go through several research analyses that I had conducted I hope that this book will help serve as inspiration for people to keep fighting and if that doesn't work then fight smart

vols for 1933-42 include an annual directory number for 1959 an annual roster of realtors

this text addresses the educational and administrative aspects of fire prevention covering the contributions of both the public and private sectors offering a historical perspective on the field the text examines fire safety programs research activities and arson suppression as a fire prevention measure
