this volume approaches the word of faith as a worldview and analyses the movement through n t wright s model for worldview analysis in order to provide necessary nuance and complexity to scholarly interpretations of the word of faith the reader receives insights into the movement s narrative semiotic practical and propositional dimensions which cumulatively offer a multifaceted understanding of how the word of faith interprets reality and engages with the world the analysis shows that there is a narrative core to word of faith beliefs in the form of a unique theological story with focus set on the present restoration of eden s authority and blessings this study demonstrates how the word of faith operates as a distinct worldview that parses the world through the lens of faith s causative power to affect a direct correspondence between present reality and eden s perfection the findings advance a critical and therapeutic approach that acknowledges how the worldview both strengthens and subverts pentecostalism

in the past changes in behavior and in belief have been leading indicators for missionaries that christian conversion had occurred but these alone or even together are insufficient for a gospel understanding of conversion for effective biblical mission paul g hiebert argues we must add a third element a change in worldview here he offers a comprehensive study of worldview its philosophy its history its characteristics and the means for understanding it he then provides a detailed analysis of several worldviews that missionaries must engage today addressing the impact of each on christianity and mission a biblical worldview is outlined for comparison finally hiebert argues for gospel ministry that seeks to transform people s worldviews and offers suggestions for how to do so

why are people the way they are why are some cultures and nations progressive while others seem to be perpetually mired in backwardness and poverty what were the original foundations upon which western culture thrived what are the current effects of secularism on the west and the rest of the world what would it be like if christians not only prayed for god s kingdom to come but heeded jesus teaching to live out the truths of his kingdom on earth worldview and the kingdom of god is an easy to read book for the ordinary man on the street that challenges the worldview of christians based on the original good news of the kingdom that jesus and his disciples preached not the popular gospel of salvation to go to heaven that most christians preach it calls for a paradigm shift from a salvation from this world worldview to a god s kingdom on earth worldview beginning with the premise that the world is ruled by ideas and that ideas have consequences the message invites the reader to examine his worldview and reflect on what has been influencing and shaping it the concept of worldview is explained in simple terms and the reader is invited

to reflect on the worldviews of animism and secularism and its consequences and examine how much of his worldview is still rooted in animism and or influenced by secularism god's kingdom is then introduced and contrasted against satan's kingdom and man's kingdom in the light of the biblical teaching of the three kingdoms the call is for christians to discard their salvation from this world worldview if they are to get beyond themselves and church as we know it to get on with god's agenda for his kingdom to come and his will to be done on earth as it is done in heaven

the church today can be divided into two different understandings of the kingdom of god the first group

views the kingdom of god as mystical invisible and heavenly these christians assert that jesus is lord of all but his kingdom does not make a difference

conceiving of christianity as a worldview has been one of the most significant events in the church in the last 150 years in this new book david naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life this informative volume first locates the origin of worldview in the writings of immanuel kant and surveys the rapid proliferation of its use throughout the english speaking world naugle then provides the first study ever undertaken of the insights of major western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences finally naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the evangelical orthodox and catholic traditions this clear presentation of the concept of worldview will be valuable to a wide range of readers

the goal of many evangelical educators is to facilitate biblical thinking and the worldview transformation of their students yet aside from upholding a set of moral behaviors or maintaining positions on issues perceived to be christian the goals and aspirations of most evangelical young people differ little from their unbelieving peers as george barna has noted we have a generation coming up that isn't looking at christianity to answer spiritual concerns we either change or we lose them worldview as worship contends that the approach taken by most evangelical educators to the issue of worldview transformation has neglected to address two fundamental components of worldviews first that our initial worldviews are not philosophical systems but rather faith dispositions and that worldview transformation cannot simply present the biblical worldview as a more rational or logical system but must address issues of the heart as well as the mind second unlike philosophies that are individual worldviews are communal and are

learned and transformed within the context of community practice appealing to paul's teaching in romans 12:1-2 worldview as worship approaches the renewing of your mind as the result of the believer's presentation of themselves as a holy sacrifice which is your spiritual service of worship the book advocates an approach to worldview transformation that focuses on believers as apprentices rather than simply as students an approach that holds true to the biblical model of discipleship as a result worldview transformation works best when the application of faith to the issues of learning and life are modeled by the faith community and where students are given the opportunity to put faith into practice

this text strives to be as inclusive as possible it attempts to give voice to as wide a range as possible of the diverse sources of contemporary worldviews throughout the globe western and eastern northern and southern women's and men's preface
