a stimulating and thought provoking guide to help you make productive and autonomous choices toward rewriting your life los angeles times we choose a life script at an early age but you can change its course whether born into wealth or poverty into nurturing families or damaged abusers fostered by strict parents or careless and undisciplined ones each individual still has a spiritual core that exists independent of the environment and is equally crucial to his or her destiny countering the fundamental principle of psychiatry which asserts that emotional and mental distress comes from within claude steiner believes that people are innately healthy but develop a pattern early in life based upon negative or positive influences of those around them those influences can rule every detail of our lives until our death thus children decide however unconsciously whether they will be happy or depressed winners or failures strong or dependent caring or cruel and having decided they spend the rest of their lives making that decision come true for those who choose to live by their negative script the consequences can be disastrous unless they make a conscious decision to change in scripts we live steiner tackles the puzzle of human fate he reveals what determines our life scripts and how each person s combination of spirit and

circumstance contributes to the final path that life takes and he offers hopeful advice and practical analysis so that we all can rewrite for ourselves more meaningful and fulfilling lives

first published in 1977 in the summer of 1971 there was a workshop in an ill defined field at the intersection of psychology artificial intelligence and linguistics the fifteen participants were in various ways interested in the representation of large systems of knowledge or beliefs based upon an understanding process operating upon information expressed in natural language this book reflects a convergence of interests at the intersection of psychology and artificial intelligence what is the nature of knowledge and how is this knowledge used these questions lie at the core of both psychology and artificial intelligence

first published in 1984 this book is an expansion of three lectures on schema theory given at the university of alberta in the fall of 1983 as part of the maceachran memorial lecture series

this open access volume reveals the hidden power of the script we read in and how it shapes and drives our minds ways of thinking and cultures expanding on the linguistic relativity hypothesis i e the idea that language affects the way we think this volume proposes the script relativity hypothesis i e the idea that the script in which we read affects the way we think by offering a unique perspective on the effect of script alphabets morphosyllabaries or multi scripts on our attention perception and problem solving once we become literate fundamental changes occur in our brain circuitry to accommodate the new demand for resources the powerful effects of literacy have been demonstrated by research on literate versus illiterate individuals as well as cross scriptal transfer indicating that literate brain networks function differently depending on the script being read this book identifies the locus of differences between the chinese japanese and koreans and between the east and the west as the neural underpinnings of literacy to support the script relativity hypothesis it reviews a vast corpus of empirical studies including anthropological accounts of human civilization social psychology cognitive psychology neuropsychology applied linguistics second language studies and cross cultural communication it also discusses the impact of reading from screens in the digital age as well as the impact of bi script or multi script use which is a growing trend around the globe as a result our minds ways of thinking and cultures are now growing closer together not farther apart

this book is appropriate as a text for postgraduate marriage and family counselor therapist training and also as a professional development resource for practicing marriage and family counselors the first three chapters of this book introduce the notions of social construction assumptions and social scripting theory the remaining chapters then apply the theory of scripting to common clinical family situations seen in therapy such as death and grief in the family premarital child bearing adolescence couples therapy and chemical dependence in the family

first published in 1984 routledge is an imprint of taylor francis an informa company
