this is one mans journey to discover the truth about the bible terry read grew up in a christian household and went to church but terry did not live in a bubble terry watched documentaries read magazines read encyclopedias and went to public school terry knew that what he was learning about science from all of these other sources did not mesh with the bible terry tried to make the two world views fit together somehow but terry discovered another option that he had never been taught that a person could believe the bible as it reads the bible does not contradict good science terry studied this he learned that the biblical world view is actually the only world view that is consistent with even doing science terry's discovery was such great news to him that he wanted to share it he knew that other people would be happy to hear this message he knew that whether or not they admitted it other people were doing mental gymnastics as he had done to make the bible fit the science terry could see the devastation brought on society because people do not believe the bible but when terry tried to share his discovery he became frustrated the reason terry had so much consternation was the unexpected source of the frustration church leadership church leadership was actually afraid to share this message that people really can believe the bible this book documents terry's struggles and tells what you can do

if you've ever fantasized walking and conversing with the great scientist on the subjects that consumed him and now wish to add the fullness of reality read this book edward o wilson author of half earth our planet's fight for life james t costa takes readers on a journey from darwin's childhood through his voyage on the hms beagle where his ideas on evolution began and on to down house his

bustling home of forty years using his garden and greenhouse the surrounding meadows and woodlands and even the cellar and hallways of his home turned field station darwin tested ideas of his landmark theory of evolution through an astonishing array of experiments without using specialized equipment from those results he plumb the laws of nature and drew evidence for the revolutionary arguments of on the origin of species and other watershed works this unique perspective introduces us to an enthusiastic correspondent collaborator and especially an incorrigible observer and experimenter and it includes eighteen experiments for home school or garden finalist for the 2018 aaas subaru sb f prizes for excellence in science books

contains biographical sketches of erasmus darwin robert waring darwin and charles darwin

charles darwin is well known throughout the world for his revolutionary work from 1859 the origin of species the foundational study of evolution which greatly challenged the near universal belief in the christian world at that time of creationism originally published in 1928 dorsey attempts to provide a detailed account of the scientist s life and personality informed by letters published works and an autobiography written by darwin darwin s life was full of challenges both in his personal life as well as his career and the evolution of charles darwin explores all aspects of his life from birth to death emphasising the great impact his work had in the scientific community and humanity as a whole

in 2008 a gallup poll showed that 44 percent of americans believed god had created man in his present form within the last 10 000 years in a pew forum poll in the same year 42 percent believed that all life on earth has existed in its present form since the beginning of time in 1859 charles darwin s masterpiece on the origin of species shook society to its core darwin was only too aware of

the storm his theory of evolution would provoke but he surely would have raised an incredulous eyebrow at the controversy still raging a century and a half later evolution is accepted as scientific fact by all reputable scientists and indeed theologians yet millions of people continue to question its veracity now the author of the iconic work the god delusion takes them to task the greatest show on earth is a stunning counterattack on advocates of intelligent design explaining the evidence for evolution while exposing the absurdities of the creationist argument dawkins sifts through rich layers of scientific evidence from living examples of natural selection to clues in the fossil record from natural clocks that mark the vast epochs wherein evolution ran its course to the intricacies of developing embryos from plate tectonics to molecular genetics combining these elements and many more he makes the airtight case that we find ourselves perched on one tiny twig in the midst of a blossoming and flourishing tree of life and it is no accident but the direct consequence of evolution by non random selection the greatest show on earth comes at a critical time systematic opposition to the fact of evolution is menacing as never before in american schools and in schools around the world insidious attempts are made to undermine the status of science in the classroom dawkins wields a devastating argument against this ignorance but his unjaded passion for the natural world turns what might have been a negative argument into a positive offering to the reader nothing less than a master s vision of life in all its splendor

this book is the result of god s mysterious activities on george hayes s behalf george has been beholden to god throughout his life he continues to return god s love with a second book resuming the exposition of god and the western world that divulged the works of god as he spread christianity worldwide the focus here is an understanding of mankind s advance to high intelligence and a comparison of man s technologies to god s technologies god s technologies include dark matter dark

energy dna and rna included in this discussion are more details on the creation and sustenance of the universe an example of the information discussed is the interplay of dark matter and dark energy just prior to and during the big bang a discussion of the climate change problems we are experiencing is presented including a list of major cities worldwide that may be submerged by a minimum two hundred foot rise in sea level there is a presentation of changes to earth as pangea broke up eventually forming the continents we know and how life on earth changed as god affected evolution to bring mammals upon earth and then manipulated dna to give rise to modern man a discussion of mankind s religions is conducted important findings in the garden continent of africa regarding distribution of languages are discussed as well as a finding that may lead to the original language used by god to converse with adam and eve as well as used by god to direct dark matter and dark energy when he spoke our universe into existence in conclusion firstly god s works from before the big bang until the coming of jesus christ is summarized secondly a briefing on god s march through time is displayed as the word of jesus christ is spread worldwide thirdly the efforts are listed for avoidance of leaving a badly damaged earth with our coasts and their infrastructures becoming submerged there are two distinct audiences for whom george has developed both books the first is the scientific community the second audience is the average person living on earth and there may be passages that confuse them due to technical detail you may want to skip those passages and you can you will still have an engrossing read but if you reread them you may develop a complete understanding of the marvels god almighty has accomplished to bring earth s human beings to the status we have reached today

down from the trees man s amazing transition from tree dwelling ape ancestors covers the evolution of man from tree dwelling ape to homo sapiens as he is today using easy to read language the author

takes complex jargon filled material and extracts the essence of the topic and conveys it in a clear and engaging manner he approaches the subject of human evolution from three different disciplines fossil evidence and its interpretation evolutionary theory and its applicability and genetic evidence and its ability to unlock prehistoric information the third discipline has advanced unbelievably in the last few years and this book includes the most up to date research there is nothing more interesting to humans than the story of their origins the evolutionary process of a tree dwelling ape becoming a walking talking man who has developed the technology to walk on the moon transplant hearts or modify living things is no trivial story this book provides a fascinating and comprehensive view of what science has learned of human evolution

in and it was so dr scott ransom argues that perceived gaps between science and the biblical account of creation are symptoms of misinterpretation a proper understanding of the hebrew language the audience for which genesis was written the process of biblical translation and the nature of science coalesce into a coherent picture of creation in which science and the bible align ransom takes the reader into the story of creation and the science behind it distilling complex scientific concepts into easily digestible nuggets and along the way introducing us to many of the lesser known heroes of scientific discovery in the end the reader will have a new appreciation for both science and the bible as well as the harmony that exists between both
