the army's ability to meet public and congressional demands to destroy expeditiously all of the U.S. declared chemical weapons would be enhanced by the selection and acquisition of appropriate explosive destruction technologies. Edts to augment the main technologies to be used to destroy the chemical weapons currently at the Blue Grass Army Depot (BGAD) in Kentucky and the Pueblo Chemical Depot (PCD) in Colorado. The Army is considering four edts for the destruction of chemical weapons: three from private sector vendors and a fourth Army-developed explosive destruction system. Edts. This book updates earlier evaluations of these technologies as well as any other viable detonation technologies based on several considerations including process maturity, process efficacy, process throughput, process safety, public and regulatory acceptability, and secondary waste issues. Among others, it also provides detailed information on each of the requirements at BGAD and PCD and rates each of the existing suitable edts plus the Army's edts with respect to how well it satisfies these requirements.

This textbook takes pre-service and current physical education teachers through some of the most common psychosocial challenges PK-12 students face and recommends ways to support them within and beyond the gymnasium classroom. Each chapter blends theoretical perspectives and real-world examples to foster connections with students, developing relationships that support their social, emotional, and physical health, and ultimately their academic progress. The content of this book guides studying and practicing physical educators in building relationships with their students, enabling trust, increasing engagement, and improving overall outcomes. Within these chapters, the author covers the topics of anxiety, self-regulation, trauma, bullying, and diversity issues that impact students daily and provides related scenarios educators might encounter. Case studies and discussion questions help scaffold every topic for course use and are based on best practices from the author's own psychosocial aspects of physical education module. This book is geared toward undergraduate and graduate PE students taking psychosocial or related courses as well as student and full-time teachers. The author promotes future and current educators' understanding of important factors affecting student learning both in and outside of the gymnasium, increasing both physical and emotional safety during movement activities.

In this edited collection, the authors grapple with both the strengths and challenges that HBCUs face as the nation's demographics change from their place in American society and growing diversity on HBCU campuses to class and elitism issues to study abroad and honors programs.
