since the 1950s and the advance of urban renewal local governments and urban policy have focused heavily on the central business district however such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise america this analysis of urban neighborhoods in the united states from 1960 to 1995

presents fifteen essays by scholars of urban planning and development together they show how urban neighborhoods can and must be preserved as economic cultural and political centers

a quiet revolution is taking place in america s forests once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager this book provides the first comprehensive examination of nontimber forest products ntfps in the united states illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them as the first extensive national overview of ntfp policy and management specific to the united states it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of ntfps the contributors review the state of scientific knowledge of ntfps by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce they examine some of the major social economic and biological benefits of ntfps while also addressing the potential negative consequences of ntfp harvesting on forest ecosystems and on ntfp species populations within this wealth of information are rich accounts of ntfp use drawn from all parts of the american landscape from the pacific northwest to the caribbean from honey production to a review of nontimber forest economies still active in the united states such as the ojibway harvest of plants recounted here the book takes in the whole breadth of recent ntfp issues including ecological concerns associated with the expansion of ntfp markets and ntfp tenure issues on federally managed lands no other volume offers such a comprehensive overview of ntfps in north america by examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests

a path breaking book the first to examine the evolution of community organizing in u s cities while embracing

mobilization the contributors acknowledge the challenges inherent in globalization and the norms and values that shape contemporary american culture still they reaffirm that community organizing has an important role to play as part of a broader progressive movement

an explanation of why some us cities are better at educational reform than others it relates education to politics showing how the whole village can be mobilized to better educate tomorrow s citizens it is based on an 11 city study of civic capacity and urban education

a core textbook in urban economics which originated in the combination of mills text urban economics and hamilton s urban economics course at johns hopkins u this edition is updated to take account of the 1990 data from the bureau of the census and the most recent research results in urban economics it also adds a new chapter on housing finance a reasonably solid foundation in microeconomic principles is a prerequisite annotation copyright by book news inc portland or

twenty four articles by experts in different fields focus upon medieval italian renaissance and modern african cities industrialization in europe and the problems of urban america

a summary of the work of the chicago urban analysis project

the literature on rural america to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns as a result the real rural america remains much misunderstood neglected or ignored by scholars and policymakers alike in response emery castle offers the changing american countryside a volume that will forever change how we look at this important subject castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands these authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional

diversity the authors are especially effective in demonstrating why rural america is so much more than just agriculture it is in fact highly diverse complex and interdependent with urban america and the international market place most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections to do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life

the authors survey general revenue and demographic issues and then analyze the five policy areas education corrections transportation welfare and health that consume 84 3 of the state budget and that in terms of both cost and controversy rank highest on the state s policy agenda emerging from this analysis is the disturbing consensus that kansas is an increasingly divided state one urban younger and wealthier the other rural older and poorer

analyzes the problematic trends facing america s cities and older suburbs and challenges us to put america s urban crisis back on the national agenda

three components per entry definition see also and significance offer thorough reference to some 600 terms pertinent to urban politics and those involved a suggested reading list is also included for most terms the more controversial and complicated entries not the self evident ones includes a subject index unlike many works in the dictionary format annotation copyrighted by book news inc portland or
