albert einstein once said that buddhism has all the markings of a cosmic religion this engaging little book paints buddhism as the way of the world to come but yet explains patiently why it is all right to fail at trying to become a buddhist with lucid style and characteristic wit ms fields deftly interweaves the past the present and the future science and spirituality the east and the west earth and space and prose and poetry to produce a rich tapestry studded not only with gems of stupefying similes and mesmerising metaphors but also drenched with the distilled wisdom of the ages infused with original inspirational insight buddhism is a religion for wealthy intellectuals according to fields but read this beautifully crafted book to find out just who might be one

discusses assertions in eastern philosophies discoveries in modern science and the effects of western cultural norms to present the value and practical applications of meditation and mindfulness practices includes meditation and mindfulness techniques personal anecdotes scientific discoveries along with philosophical commentary to address topics such as the illusion of self non duality and the moral dilemma the illusion of free will anger fear and anxiety vegetarianism love death enlightenment etc

the current western interest in buddhism and other eastern religions is among other reasons both the result of and the stimulation for an entire library of books purporting to bring the wisdom of the east to an audience for whom the wisdom of the west has failed this book is not an example of that genre it is an attempt to interpret buddhism in the

light of some current theories about religion as a work of scholarship rather than a homiletic tract or an apologetic treatise its aim is to understand buddhism as one historical variant of the generic human attempt to find meaning and hope in a sacred order that transcends the mundane order of existence its aim is not to encourage or discourage either a devotional or a soteriological interest in buddhism

buddhism and its religious others examines how buddhist literature and art from pre modern asia understand and represent the character and value of other religions it looks at the strategies employed by indian chinese japanese and southeast asian buddhists to challenge and claim authority over traditions that opposed buddhism and its influence

in the early twentieth century uchiyama gudō seno o girō lin qiuwu and others advocated a buddhism that was radical in two respects firstly they adopted a more or less naturalist stance with respect to buddhist doctrine and related matters rejecting karma or other supernatural beliefs and secondly they held political and economic views that were radically anti hegemonic anti capitalist and revolutionary taking the idea of such a radical buddhism seriously a buddha land in this world philosophy utopia and radical buddhism asks whether it is possible to develop a philosophy that is simultaneously naturalist anti capitalist buddhist and consistent rather than a study of radical buddhism then this book is an attempt to radicalize it the foundations of this radicalized radical buddhism are provided by a realist interpretation of yogācāra elucidated and elaborated with some help from thinkers in the broader tiantai tendai tradition and american philosophers donald davidson and w v o quine a key implication of this foundation is that only this world and only this life are real from which it follows that if buddhism aims to alleviate suffering it has to do so in this world and in this life twentieth century radical buddhists as well as some engaged buddhists came to a similar conclusion often expressed in their aim to realize a buddha land in this world building on this foundation but also on mahāyāna moral philosophy this book argues for an ethics and social philosophy based on a definition of evil as that what is or should be expected to cause death or suffering on that ground capitalism should be rejected indeed but utopianism must be treated with caution as well which raises questions about what it means from a radicalized radical buddhist perspective to aim for a buddha land in this world lajos brons is a dutch philosopher and social scientist living in japan after receiving a phd from the university of groningen in the netherlands for a dissertation on an aspect of the history and philosophy of the social sciences he gradually moved further and further into philosophical territory currently lajos is teaching logic ethics and philosophy at a university in tokyo his research interests are divided over two broad areas in philosophy one is in the overlap of meta ethics and social political philosophy the other is in the intersection of philosophy of language metaphysics and epistemology research in the former focuses on the relations between death suffering and compassion research in the latter concerns the relations between language thought

and reality and is heavily influenced by the philosophies of donald davidson and w v o quine and by buddhist philosophy more information about publications and research interests as well as lajos s blog can be found at lajosbrons net

at a time when each society had its own medium of propagation of its researches in the form of transactions proceedings journals etc a need was strongly felt for bringing out a journal devoted exclusively to the study and advancement of indian culture in all its aspects this encouraged jas burgess to launch the indian antiquary in 1872 the scope was in his own words as wide as possible incorporating manners and customs arts mythology feasts festivals and rites antiquities and the history of india another laudable aim was to present the readers abstracts of the most recent researches of scholars in india and the west indian antiquary also dealt with local legends folklore proverbs etc in short indian antiquary was entirely devoted to the study of man the indian in all spheres introduction to facsimile volumes published 1985

abortion is arguably the most controversial and divisive moral issue of modern times but up until now the debate has taken place almost exclusively within a western cultural religious and philosophical context for the past three decades in the west arguments both for and against abortion have been mounted by groups of all kinds from religious fundamentalists to radical feminists and every shade of opinion in between rather than mutual understanding however the result has been the polarisation of opinion and the deepening of entrenched positions in the face of this deadlock a new perspective is urgently required buddhism is an ancient tradition which over the centuries has refined its distinctive beliefs and values in the course of a long interaction with the major cultures of asia as buddhism continues to engage the attention of the west the time is now opportune for its views on abortion to be heard this is the first book to explore the abortion question from a range of buddhist cultural and ethical perspectives the approach is interdisciplinary and will be of relevance to those working in fields such as law ethics medicine philosophy religion the social sciences and women s studies

providing a rigorous analysis of buddhist ways of understanding religious diversity this book develops a new foundation for cross cultural understanding of religious diversity in our time examining the complexity and uniqueness of buddha s approach to religious pluralism using four main categories namely exclusivism inclusivism pluralistic inclusivism and pluralism the book proposes a cross cultural and interreligious interpretation of each category thus avoiding the accusation of intellectual colonialism the key argument is that unlike the buddha most buddhist traditions today including theravda buddhism and even the dalai lama consider liberation and the highest stages of spiritual development exclusive to buddhism the book suggests that the buddha rejects many doctrines and practices found in other traditions and that for him there are nonnegotiable ethical and doctrinal standards that correspond to the dharma this argument is controversial and likely to ignite

a debate among buddhists from different traditions especially between conservative and progressive buddhists the book fruitfully contributes to the literature on inter religious dialogue and is of use to students and scholars of asian studies world religion and eastern philosophy
