chicana feminist thought brings together the voices of chicana poets writers and activists who reflect upon the chicana feminist movement that began in the late 1960s with energy and passion this anthology of writings documents the personal and collective political struggles of chicana feminists

the first anthology to focus exclusively on queer readings of spanish latin american and us latina lesbian literature and culture tortilleras interrogates issues of gender national identity race ethnicity and class to show the impossibility of projecting a singular hispanic or latina lesbian examining carefully the works of a range of lesbian writers and performance artists including carmelita tropicana and christina peri rossi among others the contributors create a picture of the complicated and multi textured contributions of latina and hispanic lesbians to literature and culture more than simply describing this sphere of creativity the contributors also recover from history the long veiled existence of this world exposing its roots its impact on lesbian culture and making the power of lesbian performance and literature visible

this interdisciplinary volume explores the ancient greek myth of medea and its global analogues found in other mythic and folk tales of deadly exiled women such as those of la malinche and la llorona examining the connections between these figures and their depictions from antiquity to modernity the book considers the figure of the foreign woman her exile fratricide and infanticide in its ancient greek form and in global postcolonial receptions in a range of media including drama film novels and the visual arts the chapters illuminate the contradictions of considering the classical medea as a central reference point for analysis of other female figures from peripheral territories while simultaneously acknowledging the insights that such comparisons can yield emphasizing the ways in which medea s seditious nature enables the establishment of an extensive and heterogeneous intertextual network with other mythic characters who represent a similarly disruptive role in their specific local historical and cultural contexts the book argues for a comparative analysis that is equally attentive to myths and folk tales from all regions these essays by scholars of classics comparative and world literatures and postcolonial studies represent a plurality of perspectives from different academic contexts in africa latin america north america and europe and examine how different cultures have depicted women foreigners crime and abjection the foundations of greek myth and subsequently of the classical tradition itself are

interrogated from a postcolonial perspective in tracing the portrayals of medea and other mythic women through the overlapping features of different female characters and plots and intertwining local cultural and literary materials with broader debates this volume challenges eurocentric narratives of power and cultural domination and works to decentralize the discussion of medea from the exclusive domain of classical studies medea's long shadow in postcolonial contexts will be of interest to students and scholars working on greek tragedy and its reception as well as to those studying postcolonial and global approaches to literature culture and gender studies

with the 1981 publication of the groundbreaking anthology *this bridge called my back* writings by radical women of color cherríe moraga and gloria anzaldúa ushered in an era of chicana lesbian writing but while these two writers have achieved iconic status observers of the chicana experience have been slow to perceive the existence of a whole community lesbian and straight male as well as female who write about the chicana lesbian experience to create a first full map of that community this book explores a wide range of plays novels and short stories by chicana authors that depict lesbian characters or lesbian desire catriona rueda esquibel starts from the premise that chicana communities theories and feminisms cannot be fully understood without taking account of the perspectives and experiences of chicana lesbians to open up these perspectives she engages in close readings of works centered around the following themes la llorona the aztec princess sor juana inés de la cruz girlhood friendships rural communities and history and chicana activism her investigation broadens the community of chicana lesbian writers well beyond moraga and anzaldúa while it also demonstrates that the histories of chicana lesbians have had to be written in works of fiction because these women have been marginalized and excluded in canonical writings on chicano life and experience

by approaching chicana issues from the frames of feminism social activism and cultural studies and by considering both lived experience and the latest research torres offers a more comprehensive understanding of current chicana life through compelling prose torres masterfully weaves her own story as a first generation mexican american with interviews with activists and other mexican american women to document the present fight for social justice and the struggles of living between two worlds

using narrative descriptions of the author's own lived experience of her ethnic heritage martinez offers a systematic interrogation of the social and cultural norms by which certain aspects of her mexican american cultural heritage are both retained and lost over generations of assimilation combining semiotic and existential phenomenology with chicana feminism the author charts new terrain where anti racist anti sexist and anti homophobic work may be pursued
