praise for the previous edition a complete overview of the subject which does not intimidate the reader but rather spurs interest and understanding in the subject european energy and environmental law review the book is scholarly yet accessible and very readable thoroughly recommended law institute

journal description the law of the sea provides for the regulation management and governance of the ocean spaces that cover over two thirds of the earth's surface this book provides a comprehensive assessment of the foundational principles of the law of the sea a critical overview of the 1982 united nations convention on the law of the sea and an analysis of subsequent developments including many bilateral regional and global agreements that supplement the convention the third edition of this acclaimed text has been thoroughly revised and updated and now incorporates a dedicated chapter on natural and artificial islands all of the main areas of the law of the sea are addressed including the foundations and sources of the law the nature and extent of the maritime zones the delimitation of overlapping maritime boundaries the place of archipelagic and other special states in the law of the sea navigational rights and freedoms military activities at sea marine scientific research and marine resource and conservation issues such as fisheries marine environmental protection and dispute settlement the book also takes stock of contemporary oceans governance issues not adequately addressed by the convention overarching challenges facing the law of the sea are considered including how new maritime security initiatives can be reconciled with traditional navigational rights and freedoms the need for stronger legal and policy responses to protect the global ocean environment from climate change and ocean acidification and work on a new agreement for the conservation and sustainable use of marine biological diversity in areas beyond national jurisdiction

now in its 18th year the nilos documentary yearbook provides the reader with an excellent collection of documents related to ocean affairs and the law of the sea issued each year by organizations organs and bodies of the united nations system documents of the un general assembly and security council meeting of states parties to the un law of the sea convention clcs isba itlos follow ups to the un fish stocks and small island states conferences wssd ecosoc unep and unctad are reproduced first followed by the documents of fao iaea imo and unesco ioc as in the previous volumes documents which were issued in the course of 2002 are reproduced while other relevant documents are listed the nilos documentary yearbook has proved to be of invaluable assistance in facilitating access of the international community of scholars and practitioners in ocean affairs and the law of the sea to essential documentation the entry of the 1982 un law of the sea convention into force in 1994 and of the part xi agreement in 1996 as well as of the un fish stocks agreement in 2001 coupled with the ongoing follow up to review of the unced agenda 21 by the 2002 johannesburg world summit make continuation of this assistance of particular significance in the years to come the members of the yearbook's advisory board are judges abdul koroma and shigeru oda of the icj undoalos director dr vladimir golitsyn itlos president dolliver nelson and judges thomas mensah and tullio treves as well as rosalie balkin edward brown bernard oxman and shabtai rosenne

reviews the law of the sea conference four conventions and an optional protocol on the disputes and settlements of the high sea territorial sea fishing contiguous zones and the continental shelf

the climate and other characteristics of the polar regions have been major factors in shaping the legal regime applicable to the polar oceans in antarctica states have had to grapple with the question of how to account for developments in the law of the sea while preserving the compromise over sovereignty contained in the antarctic treaty the arctic also has presented challenges for the law of the sea as illustrated by the continued attention given to special rules for polar shipping the 1982 united nations convention on the law of the sea has led to substantial agreement on the legal regime of ocean spaces the present volume explores the impact the convention has had on the polar regions in this respect including after its entry into force in 1994 to this end it looks at a number of issue areas in the field of maritime delimitation baselines maritime zones delimitation of maritime zones between neighboring states and jurisdiction environmental protection navigation and fisheries from a bipolar perspective it is strongly suggested that the legal regime of the polar oceans will be further elaborated to more effectively deal with existing activities or to accommodate new activities it is likely that the united nations convention of the law of the sea will continue to provide the basic legal framework for this exercise and that states will be careful not to unravel the delicate balance contained in it

the official monthly record of united states foreign policy

a fresh and invigorating survey of the sea as it appears in medieval english literature from romance to chronicle hagiography to autobiography as the first cultural history of the sea in medieval english literature this book traces premodern myths of insularity from their old english beginnings to shakespeare's tempest beginning with a discussion of biblical classical and pre conquest treatments of the sea it investigates how such works as the anglo norman voyage of st brendan the tristan romances the chronicles of matthew paris king horn patience the book of margery kempe and the libelle of englyshe polycye shape insular ideologies of englishness whether it is britain's privileged place in the geography of salvation or the political fiction of the idyllic island fortress medieval english writers myths of the sea betray their anxieties about their own insular identity their texts call on maritime motifs to define england geographically and culturally against the presence of the sea new insights from a range of fields including jurisprudence theology the history of cartography and anthropology are used to provide fresh readings of a wide range of both insular and continental writings
