writers observers and practitioners of international politics frequently invoke the term geopolitics to describe explain or analyze specific foreign policy issues and problems such generalized usage ignores the fact that geopolitics as a method of understanding international relations has a history that includes a common vocabulary well established if sometimes conflicting concepts an extensive body of thought and a recognized group of theorists and scholars in geopolitics francis p sempa presents a history of geopolitical thought and applies its classical analyses to cold war and post cold war international relations while mindful of the impact of such concepts as globalization and the information revolution

on our understanding of contemporary events sempa emphasizes traditional geopolitical theories in explaining the outcome of the cold war he shows that the struggle between the western allies and the soviet empire was unique in its ideological component and nuclear standoff the cold war fits into a recurring geopolitical pattern it can be seen as a consequence of competition between land powers and sea powers and between a potential eurasian hegemonic power and a coalition of states opposed to that would be hegemony the collapse of the soviet empire ended the most recent threat to global stability acting as a successor to the british empire the united states organized funded and led a grand coalition that successfully countered the soviet quest for domination no power or alliance posed an immediate threat to the global balance of power indeed the end of the cold war generated hopes for a new world order and predictions that economics would replace geopolitics as the driving force in international politics russian instability the nuclear dimension of the india pakistan conflict and chinese bids for dominance have turned the asia pacific region into what mahan called debatable and debated ground russia turkey iran india pakistan china japan the koreas and the united states all have interests that collide in one or more of the areas of this region

christianity in eurafrica is an impressive book meticulously researched and well written by a professional scholar the first chapter includes some valuable historiographical guidelines for writing and understanding the history of the church in its first part the book traces the history of the church in the middle east and europe explaining the roots of theological diversity to this day in the second part the author narrates how the faith moved south took root in african soil and grew independently many pictures and illustrations serve to further enliven the account steven paas taught theology in malawi for many years he writes from a deep knowledge of and love for the lord s church especially in africa and europe this textbook on the history of christianity in two continents fits with the curricula of institutions of theological training in africa and the west the content is especially aimed at students who prepare for the ministry and for christian education the book is however also invaluable for all scholars
