every living thing is assembled by its genes this is a crucial starting point for exploring a fundamental human dilemma as stated so starkly by richard dawkins a human is a lumbering machine created for the task of safeguarding and propagating the all important genes within i would add that since the machine s behavior is driven by brain circuits pre wired by those genes sometimes we are prone to doing things which work against our individual best interest in order to advance the cause of the genes in other words some of our genes are our enemies outlaw genes because they jeopardize individual well being as they work to assure themselves genetic immortality every thinking person must face the following dilemma how can i achieve liberation from genetic pitfalls when my values and thinking are so profoundly influenced by the very same genes that have created those pitfalls the more one tries to answer this question the harder it is to imagine that an answer is possible nevertheless this is a challenge that can become irresistibly fascinating this book is an attempt to bravely explore one of humanity s most profound existential dilemmas the fate of a

civilization is also affected by the outlaw genes especially those responsible for a feeling of discontent with civilization and a vague preference for a simpler society which i would describe as resembling those found in the human ancestral environment this book explores how a flawed human nature undermines every civilization starting a decline and eventual fall those of us born during the 20th century are lucky for having seen the best of times for our civilization and as a questionable bonus we may now witness from close up the forces that have condemned every past civilization to ruin

friedrich nietzsche is one of the most popular and controversial philosophers of the last 150 years narcissistic idiosyncratic hyperbolic irreverent never has a philosopher been appropriated deconstructed and scrutinized by such a disparate array of groups movements and schools of thought adored by many for his passionate ideas and iconoclastic style he is also vilified for his lack of rigor apparent cruelty and disdain for moral decency in living with nietzsche solomon suggests that we read nietzsche from a very different point of view as a provocative writer who means to transform the way we view our lives this means taking nietzsche personally rather than focus on the true nietzsche or trying to determine what nietzsche really meant by his seemingly random and often contradictory pronouncements about the big questions of philosophy solomon reminds us that nietzsche is not a philosopher

of abstract ideas but rather of the dazzling personal insight the provocative challenge the incisive personal probe he does not try to reveal the eternal verities but he does powerfully affect his readers goading them to see themselves in new and different ways it is nietzsche s compelling invitation to self scrutiny that fascinates us engages us and guides us to a rich inner life ultimately solomon argues nietzsche is an example as well as a promulgator of passionate inwardness a life distinguished by its rich passions exquisite taste and a sense of personal elegance and excellence
