something to stand the rain is a biographical memoir that celebrates the often unrecognized worth of individuals beneath the radar of fame at a time in our nation when faith in its leadership is at a low ebb the components of a good man are laid out for review before being illustrated in the life of a man named david dionisi someone who rose to wealth as corporate executive before surrendering it to lift up those less fortunate than himself youthful longing to be a paratrooper carries him beyond a pancake landing without benefit of parachute from which miraculously he walks away

military service as an intelligence officer ends when conflicting with love for the woman he marries though he rises rocket like in the corporate world his affluence leaves him dissatisfied moved to overwhelming compassion by the suffering of the poor and needy he decides to devote his savings and his talents to their aid among the benefactions born of the foundation he launches are an orphanage in africa and a writing career this emerges from realization that one of the most effective ways to lift the impoverished from their plight rests in the exposure of its unrecognized root causes

safe and independent gait is one of the most important physical function of human gait training is essential to people with gait difficulty although there are many types of gait training strategy there are no consensus on which one is the best gait training strategy can be divided into compensatory approaches and restorative approaches although people with severe impairment wish to restore normal walking it is too difficult to use their involved body part normally in gait also people use compensatory approaches in gait even in training session therefore forced use of involved body part is indispensable in gait training to people with severe impairment this book introduces new gait training frame which uses forced use of affected body part first strengthening of weakened muscle second step up with affected lower limb third step down with weight support with affected lower limb and fourth is step down touch actual gait training starts after people can support their body weight and maintain balance with affected lower limb without using hand with this approach people can restore impaired body function regain more normal gait and can reach optimal outcome
