why urban design is larger than architecture the foundational qualities of urban design examples and practitioners urban design in practice is incremental but architects imagine it as scaled up architecture large ready to build pop up cities this paradox of urban design is rarely addressed indeed urban design as a discipline lacks a theoretical foundation in the largest art brent ryan argues that urban design encompasses more than architecture and he provides a foundational theory of urban design beyond the architectural scale in a declaration of independence for urban design ryan describes urban design as the largest of the building arts with qualities of its own ryan distinguishes urban design from its sister arts by its pluralism plural scale ranging from an alleyway to a region plural time because it is deeply enmeshed in both history and the present plural property with many owners plural agents with many makers and plural form with a distributed quality that allows it to coexist with diverse elements of the city ryan looks at three well known urban design projects through the lens of pluralism a brancusi sculptural ensemble in romania a bronx housing project and a formally and spatially diverse grouping of projects in ljubljana slovenia he revisits the thought of three plural urbanists working between 1960 and 1980 david crane edmund bacon and kevin lynch and he tells three design stories for the future imaginary scenarios of plural urbanism in locations around the world ryan concludes his manifesto with three signal considerations urban designers must acknowledge eternal change inevitable incompleteness and flexible fidelity cities are ceaselessly active perpetually changing it is the urban designer's task to make

art with aesthetic qualities that can survive perpetual change
