in the true message of jesus christ dr bilal philips claims that jesus christ was merely a prophet of allah who reaffirmed the central message that was later revealed to muhammad dr philips argues that although jesus claimed to be the son of god in the bible modern translations of the bible are corruptions of the original revelations given by allah only the qur an which downgrades jesus status from the son of god to a prophet reflects god s true uncorrupted message this reply to the true message of jesus christ demonstrates that dr philips arguments are flawed and suffer from serious weaknesses on multiple levels first dr philips claims are not historically grounded second he misconstrues the text and meanings of the bible third he employs circular reasoning to support his assertions fourth the claims dr philips makes with respect to the corruption of the bible conflict with even the teachings of the qur an on the divine inspiration of the torah and other hebrew and christian scriptures some of dr philips claims about the bible are correct though ultimately they relate to minor or ancillary points such as discrepancies in extant biblical manuscripts as to a king s age when he began to rule while such minor discrepancies exist they should be expected in the copying and transmission of texts over thousands of years and they do not suggest deliberate falsification of the text for dogmatic purposes such discrepancies do not alter the overall message of the bible that god so loved the world that he gave his one and only son so that everyone who believes in him will have eternal life john 3 16 the true message of jesus christ fails to persuasively demonstrate that man has corrupted the bible that the qur an is god s true and divinely inspired book and that jesus true message is that he is merely a prophet of allah rather than god s sacrificial lamb offered as the atoning sacrifice for our sins and not only for ours but also for the sins of the whole world 1 john 2 2 ultimately the book fails to defeat the hope given to all who put their faith and trust in jesus christ

within traditional decision theory common decision principles e g the principle to maximize utility generally invoke idealization they govern ideal agents in ideal circumstances in realistic decision theory paul weirich adds practicality to decision theory by formulating principles applying to nonideal agents in nonideal circumstances such as real people coping with complex decisions bridging the gap between normative demands and psychological resources realistic decision theory is essential reading for theorists seeking precise normative decision principles that acknowledge the limits and difficulties of human decision making

humorous wit is a new compilation of quotations in their most humoristic form there are over 15 000 of these taken from various parts of the world with over 1 200 of them translated into english for the first time this book features 5 000 authors from every corner of the globe covering a period starting before classical antiquity when man first started to record his thoughts to modern times enriching the cultural heritage this does not in any way mean that the caveman was less humorous but the richness of the environment we live in today and the variety of subject matter contribute considerably to a refined sense of humour moreover considering that chimps and other primates also possess the ability to laugh humour may have been around longer than the human race
