argument remains the same that an artificial intelligence ai that could equal or exceed human intelligence sometimes called artificial general intelligence agi is for mathematical reasons impossible it offers two specific reasons for this claim human intelligence is a capability of the human brain and central nervous system which is a complex dynamic system systems of this sort cannot be modelled mathematically in a way that allows them to operate inside a computer in supporting their claim the authors jobst landgrebe and barry smith marshal evidence from mathematics physics computer science philosophy linguistics biology and anthropology setting up their book around three central questions what are the essential marks of human intelligence what is it that researchers try to do when they attempt to achieve artificial intelligence ai and why after more than 50 years are our interactions with ai for example when on the telephone with our bank s computers still so unsatisfactory the first edition was published the same week that chatgpt was unleashed onto the world this second edition shows how the arguments in the book apply already to large language models such as chatgpt this new edition also brings up to date the arguments relating to the limits of ai showing why ai systems are best viewed as pieces of mathematics which cannot think feel or will they also demolish the idea that with the help of ai we could solve physics in a way that would allow us to create in the cloud a perfect simulation of reality in which we could enjoy digital immortality such ideas reveal a lack of understanding of physics mathematics human biology and computers there is still as the authors demonstrate in an updated final chapter a great deal that ai can achieve which will benefit humanity but these benefits will be achieved without the aid of systems that are more powerful than humans which are as impossible as ai systems that are intrinsically evil or able to will a takeover of human society key changes to the second edition shows how the arguments of the first edition apply also to new large language models adds a treatment of human practical intelligence of knowing how vs knowing that a topic that is ignored by the ai community demonstrates why ai ethics should be relabelled as ethics of human uses of ai adds a new chapter showing the essential limitations of physics providing a thorough grounding for the arguments of the book demolishes the idea that we might already be living in a simulation

contemporary japanese horror is deeply rooted in the folklore of its culture with fairy tales like ghost stories embedded deeply into the social cultural and religious fabric ever since the emergence of the j horror phenomenon in the late 1990s with the opening and critical success of films such as hideo nakata s the ring ringu 1998 or takashi miike s audition Ôdishon 1999

japanese horror has been a staple of both film studies and western culture scholars and fans alike throughout the world have been keen to observe and analyze the popularity and roots of the phenomenon that took the horror scene by storm producing a corpus of cultural artefacts that still resonate today further japanese horror is symptomatic of its social and cultural context celebrating the fantastic through female ghosts mutated lizards posthuman bodies and other figures encompassing a range of genres and media including cinema manga video games and anime this book investigates and analyzes japanese horror in relation with trauma studies including the figure of godzilla the non human via grotesque bodies and hybridity with western narratives including the linkages with hollywood thus illuminating overlooked aspects of this cultural phenomenon

confucian ethics of the axial age describes the formative period of chinese culture the last centuries of the zhou dynasty as an early epoch of enlightenment it comprehensively reconstructs the ethical discourse as thought gradually became emancipated from tradition and institutions rather than presenting a chronology of different thinkers and works this book discusses the systematic aspects of moral philosophies based on original texts roetz focuses on filial piety the conflict between the family and the state the legitimating of the political order the virtues of loyalty friendship and harmony concepts of justice the principle of humaneness and its different readings the golden rule the moral person the autonomous self motivation decision and conscience and various attempts to ground morality in religion human nature or reason these topics are arranged in such a way that the genetic structure and the logical development of the moral reasoning becomes apparent from this detached perspective conventional morality is either rejected or critically reestablished under the restraint of new abstract and universal norms this makes the chinese developments part of the ancient worldwide movement of enlightenment of the axial age

magique the otherland chronicles by john helgeson what is to become of two societies at odds one ruled by magic the other by chaos the people of magique believe their existence is perfect but the nons of otherland have news for them their rule is at an end for centuries the nons have been exploited mistreated many tortured at the hands of the glamorous lazy citizens of magique after all the nons have no value for they have no magic but magique is soon introduced to a non who is also immune to the effects of magic and their world begins to change at his declaration this non demands magique return to the chaotic life of otherland a sentient region of the planet a part of the planet that wants nothing but chaos where life is indeterminate uncertain and

destructive just as magique was in its early days eventually otherland has to be controlled for the sake of the very planet s existence and when the true history of magique is revealed enemies must navigate beyond old beliefs and biases and unite to make hope possible and forge a new beginning for everyone come enjoy the vivid world of magique the otherland chronicles and join the journey
