a collection of questions and answers involving science

what time is it at the north pole what's the chemical formula for a human being why is snot green should you pickle your conkers why do boomerangs come back the new scientist magazine's ever popular last word column produces an endlessly fascinating array of questions and answers from its readers for all those who relish its mixture of wit insight and scientific curiosity not to mention those

who have read and enjoyed does anything eat wasps the brilliantly successful previous collection this new volume will be irresistible why don t penguins feet freeze includes recent answers never before published in book form as well as old favourites from the column s early days this bumper collection brings together the highlights of the last word in another wise weird and wacky compendium that is guaranteed to amaze inform and delight

while most people view conflict as a bad thing that should be avoided at all costs the reality is that embracing conflict in a healthy way is the single greatest factor in driving success and avoiding painful failure don t get mad at penguins breaks down the factors that escalate conflict to dangerous heights and shows us how to defuse conflict and make it work for us rather than against us just as toxins in our bodies make us unhealthy slow us down and cause us pain the same holds true for toxins in our organizations and minds they cause healthy conflict to become destructive which then consumes an organization s energy and taxes its ability to compete grow and prosper team engagements become pained client relationships are strained and individual careers suffer the same unhealthy painful dynamics play out in our personal lives as well the key to making conflict work for our benefit lies in removing toxins from our interactions and don t get mad at penguins offers simple yet powerfully effective tools to do just that

describes the physical characteristics behavior and habitat of penguins

super penguin by rob witzel in a world without humans animals have evolved they drive cars have jobs and even become super heroes one of those animals is paul a seemingly average penguin working an average job as an eagle city sports reporter however when paul gets tangled up in a major crime investigation he becomes super penguin

a learning bank of information and activities that teach about penguins

brilliant but overlooked ideas you must know as revealed by today s most innovative minds what scientific term or concept ought to be more widely known that is the question john Brockman publisher of the acclaimed science salon edge org the world s smartest website the guardian presented to 205 of the world s most influential thinkers from across the intellectual spectrum award winning physicists economists psychologists philosophers novelists artists and more from the origins of the universe to the order of

everyday life this idea is brilliant takes readers on a tour of the bold exciting and underappreciated scientific concepts that will enrich every mind pulitzer prize winning author of guns germs and steel jared diamond on the lost brilliance of common sense oxford evolutionary biologist richard dawkins on how the genetic book of the dead could reconstruct ecological history philosopher rebecca newberger goldstein on how to extend our grasp of reality beyond what we can see and touch author of seven brief lessons on physics carlo rovelli on the interconnected fabric of information booker prize winning novelist ian mcewan on the navier stokes equations which govern everything from weather prediction to aircraft design and blood flow cosmologist lawrence m krauss on the hidden blessings of uncertainty psychologist steven pinker on the fight against entropy nobel prize winning economist richard thaler on the visionary power of the premortem grammy award winning musician brian eno on confirmation bias in the internet age advertising guru rory sutherland on the world changing power of sex appeal harvard physicist lisa randall on the power of the obvious wired founding editor kevin kelly on how to optimize your chances at success nobel prize winner frank wilczek on the creative potential of complementarity pulitzer prize winning new york times reporter john markoff on the synthetic metamaterials that soon will transform industry and technology euroscientist sam harris on the lost art of intellectual honesty berkeley psychologist alison gopnik on the role of life history in the human story and many others

the thrilling conclusion to christopher healy s funny action packed acclaimed alt history adventure it is 1884 and molly and cassandra pepper emmett lee and emmett s long lost father are sailing back to new york following their death defying adventure in antarctica having discovered a subterranean world at the south pole while saving the world from certain doom once again surely their accomplishments will finally earn them the recognition they deserve unless of course well you know by now and so do the peppers and lees they re used to having their deeds covered up by the government in order to protect powerful men and frankly they re sick of it and when their return to new york doesn t go the way they d planned they decide that maybe it s best to go into hiding and accept that perhaps the forces aligned against them are just too great as the 1884 presidential election approaches however our heroes discover a plot against leading candidate thomas edison that only they can stop it ll be up to them to decide whether to come out of hiding make the perilous journey to washington dc and do the right thing one last time even if it means risking everything they have left

discusses the coloring habits and habitat of the penguin and traces the origin and the evolutionary adaptations that have allowed

these birds to live as they do

discusses new zealand s forest dwelling penguin rarest of the world s penguins and edging closer to extinction every year

the year he graduated from college 22 year old noah strycker was dropped by helicopter in a remote antarctic field camp with two bird scientists and a three months supply of frozen food his subjects more than a quarter million penguins compact industrious and approachable the adélie penguins who call antarctica home visit their breeding grounds each antarctic summer to nest and rear their young before returning to sea because of long term studies scientists may know more about how these penguins will adjust to climate change than about any other creature in the world bird scientists like noah are less well known like the intrepid early explorers of antarctica modern scientists drawn to the frozen continent face an utterly inhospitable landscape one that inspires isolates and punishes with wit curiosity and a deep knowledge of his subject strycker recounts the reality of life at the end of the earth thousand year old penguin mummies hurricane force blizzards and day to day existence in below freezing temperatures and delves deep into a world of science obsession and birds among penguins weaves a captivating tale of penguins and their researchers on the coldest driest highest and windiest continent on earth birders lovers of the antarctic and fans of first person adventure narratives will be fascinated by strycker s book

color illustrations and text examine the different species of penguins their behavior and their relationship to people
