you reward your children for doing their homework they will usually respond by getting it done but is this the most effective method of motivation no says psychologist edward l deci who challenges traditional thinking and shows that this method actually works against performance the best way to motivate people at school at work or at home is to support their sense of autonomy explaining the reasons why a task is important and then allowing as much personal freedom as possible in carrying out the task will stimulate interest and commitment and is a much more effective approach than the standard system of reward and punishment we are all inherently interested in the world argues deci so why not nurture that interest in each other instead of asking how can i motivate people we should be asking how can i create the conditions within which people will motivate themselves publisher information
