joseph a dane examines the history of the books we now know as chaucer s a history that includes printers and publishers editors antiquarians librarians and book collectors the chaucer at issue here is not a medieval poet securely bound within his fourteenth century context but rather the product of the often chaotic history of the physical books that have been produced and marketed in his name this history involves a series of myths about chaucer a reformist chaucer a realist chaucer a political and critical chaucer who seems oddly like us it also involves more self reflective critical myths the conveniently coherent editorial tradition that leads progressively to modern editions of chaucer dane argues that the material background of these myths remains irreducibly and often amusingly recalcitrant the great chaucer monuments his editions his book and even his tomb defy our efforts to stabilize them with our critical descriptions and transcriptions part i concentrates on the production and reception of the chaucerian book from the sixteenth to the eighteenth centuries a period dominated by the folio complete works and a period that culminates in what chaucerians have consistently if uncritically defined as the worst chaucer edition of 1721 part ii considers the increasing ambivalence of modern editors and critics in relation to the book of chaucer and the various attempts of modern scholars to provide alternative sources of authority

now in its third decade studies in the age of chaucer is well established as the premier periodical in chaucer studies and in later middle english literature in addition to its annual bibliography of chaucer scholarship and authoritative
