abstract this dissertation explores the writing of history through the close reading of William J. R. Curtis's *Modern Architecture Since 1900* 1982 Curtis's book lies in a transitional period in the history of modern architecture between the establishment of research degrees in North American schools in the 1970s and the consolidation of the discipline as the subject matter of historiographical research in the 1990s these developments culminated in 1999 with a major methodological reassessment of the history of modern

architecture its education and its scholarly study in journals such as *JSAH* and *JAE* the study of postcolonial theories in architecture also at the turn of the century challenged the previously accepted canon of architectural history by urging the development of a global history of architecture which remains today undefined curtis worked on the first edition as a young researcher in north america in the late 1970s and on the definitive edition of the book in the early 1990s modern architecture since 1900 is exemplary of and contemporary to these developments

brazil's architecture is strikingly distinct from latin america as a whole and diverse in itself yet coverage of the architecture of twentieth century brazil is all too often confined to the work of one man oscar niemeyer or the buildings of two cities rio de janeiro and são paulo in brazil's modern architecture a new generation of brazilian cities and historians sets the record straight providing a truly comprehensive survey and analysis of twentieth century brazilian architecture this tome embodies a vivid re interpretation of brazilian architecture throughout the course of the twentieth century from the first modern houses of the 1920s and le corbusier's seminal visits to the country through the well known heroic period of the 1940s 1950s to its post 1964 crisis and up to contemporary developments works are examined from the inside by explaining the cultural context that is crucial to a truly nuanced understanding of brazilian architecture with bold originality this book clarifies the often paradoxical relation between brazil's political social and economic history and its architectural development transcending past convention it identifies with unprecedented insight the momentous architectural breakthroughs of twentieth century brazil with its tumultuous historical life where previous studies saw disintegration this volume illustrates the often unrecognized threads of continuity between the most recent architectural work and that of the high modernist era of the mid century presented with elegant flair and argued with lively sophistication brazil's modern architecture is accessible and thought provoking for the reader and groundbreaking for the history of architecture
