a serendipitous fender bending encounter between the author a
distinguished landscape architect and a wealthy frenchman in
provence leads to the strangest funniest horticultural odyssey in
recent memory the rich eccentric frenchman has just finished
renovating with great care and attention a beautiful house in
provence but the elegant courtyard looks very empty find me the
oldest olive tree in existence he challenges the author and bring
it back to take pride of place in my garden the author s travels
take him to the olive groves of france the farms of greece and
spain and many backyards of italy along the way he encounters a 3
000 year old tree a farmer who won t sell his tree unless he can
sell the farm that surrounds it mafiosi skullduggery in the plant
world unscrupulous dealers divided families local weddings
farcical disasters and a village that believes a drop of rain that
has touched the leaves of the angel tree will cure any illness or
sadness

in the bestselling olive series by writer and actress carol
drinkwater author of the forgotten summer she writes so well you
can almost smell the sun baked countryside bella her writing
captures the true spirit of the people and places she visits the
times a thrilling tale tracing the journey of olive cultivation
the lady the olive tree charts carol drinkwater s colourful and
often dangerous journey in search of the routes that olive

cultivation has taken over the centuries set during a springtime mediterranean that is evocative and perennial it is above all a tale of our time troubled by challenges her own south of france farm is experiencing carol realises new approaches to farming are becoming essential her quest takes her south through spain morocco algeria and italy before she finally returns to her farm through her travels and vivid encounters carol confronts some of the critical issues of our time land care and the harsh realities of diminishing water reserves and ends her momentous journey in the company of olive growers whose vision for the future is remarkable and ingenious

the house next door to sameer s had been empty for as long as he could remember the family had gone away when the war began but now they were back and he was ready to have fun with his new playmate together they could climb the big olive tree that overlooked both their gardens and eat the delicious olives it produced the only problem was that muna the little girl next door didn t want to play and she didn t want to share the olives she said they belonged to her family alone that is until one fateful night when lightning struck the tree poignantly told by award winning author elsa marston and with beautiful paintings from award winning illustrator claire ewart the olive tree follows two children as they learn to share and work together by looking past their differences it shows young readers that compassion and understanding lie at the heart of all friendships

the olive tree *olea europaea* l is a very important plant in terms of oil producing crops in the mediterranean basin as reported by zohary and hopf 1994 olives probably originated in the eastern region of the mediterranean area all of the ancient civilizations of the mediterranean area used the olive tree and its olive oil which was also integrated into the religious practices of all the known religions of the region with implications of peace fertility strength and purification nowadays the olive trees have spread to many countries in the world and adapted to the varied microclimates that characterize the different areas the cultivation of the olive tree has expanded in asia america and oceania due to the promotion of olive oil as a product with both nutritive and beneficial effects on health currently the world olive fruit production is around 19 million of tons of which 90 is consumed as olive oil and 10 as table olives the beginning of this book is devoted to the historical roots of olive oil production in order to produce a picture of the ancient empirical olive cultivation and italian institutions that have allowed the scientific and technological knowledge of olive cultivation to prosper from the eighteenth century to the mid 20th century olive tree biodiversity is estimated to have more than 1 200 cultivars which is a very wide germplasm in one of the chapters of this book the botanical and historical origin of the olive tree and the morphological and genetic methodologies applied to identify the olive cultivars are examined moreover the importance of preserving the large olive tree germplasm to avoid the loss of cultivated biodiversity is mentioned the importance of the germplasm collections their management and enhancement are reported in a chapter in terms of the strategies for the ex situ conservation of plant genetic resource development in the world of olive groves requests not only the choice of suitable germplasm for the different environments but also the production of olive plants in the nurseries a chapter describes the most important propagation techniques such as grafting and cutting and in particular the micropropagation that may represent a thriving business for

nurseries the last chapter explores an important aspect of the olive oil production chain which produces a large amount of by products like humid pomace and wastewater these by products have represented for several years an environmental problem due to the presence of high polyphenolic content and minerals in recent years a new approach is taking into account strategies and technologies for the valorization of these by products which would be transformed from waste materials to resources

this bestselling manual is the definitive guide to olive production in california this 180 page manual is fully illustrated with 40 tables 19 line drawings and 36 charts and 100 color and black and white photos the most notable additions to this edition include a new chapter on deficit irrigation a greatly expanded chapter on olive oil production and coverage of four new pests including the olive fly includes production techniques for commercial growers worldwide from orchard planning and maintenance to harvesting and postharvest processing contains information on pollination pruning for shaker and vertical rotating comb harvest mechanical pruning deficit irrigation mechanical harvesting methods including trunk shaking and canopy contact harvesters postharvest handling and processing methods and olive oil production also includes information on new pests including olive fly oleander scale olive mite and black vine weevil

from ancient to modern times this olive plant has provided us with a multitude of health benefits and a wealth of culinary possibilities woven throughout this beautiful book are insightful reflections from helen melser as she takes us on a journey to different olive growing countries and introduces us to irresistible recipes using not only the olive but the flower and leaf too among these you will find chocolate olives olive flower champagne melt in the mouth olive shortbread and even crispy beer battered olives includes the latest research on how the olive can support your overall health and well being publisher

summarizes the information available on current pruning techniques and and training systems it specifically addresses the problems faced by growers professionals and students who are new to olive growing

a teachers guide to integrating internet resources into the jewish classroom

this manual provides olive growers and processors with nationally accepted guidelines for ensuring the quality and safety of processed table olives covers all aspects essential for the production of safe nutritious and marketable table olives

table of contents introduction growing olives olive propagation popular varieties table and mill olives soil conditions soil moisture pruning harvesting of the fruit olives for taste extracting olive oil conclusion author bio publisher introduction if you have been reading the ancient holy books you may find references to the groves of olives and flourishing olive trees olives have long been a part of human social tradition and they have been cultivated in gardens since time immemorial it was believed that olives could not flourish in lands which were 35 miles away from the sea because they needed a special type of climate but that is not really true because you can grow an olive tree in a place where there is plenty of water where the winters are mild and in areas with mediterranean climates the native olive tree *olea europaea* is considered to be a mediterranean plant because after all the ancient romans and the greeks used olive leaves as an important symbol especially of peace holding out an olive branch meant pax and not war even the gods blessed the olive tree and allowed it to flourish on their land making it prosperous through the sale of olives archaeological surveys in jordan on sites going back more than 5000 years have found domesticated olives in abundance so is it a surprise that a garden without an olive tree would be considered to be incomplete even in those ancient days apart from using olives in a diet olive oil was also used since ancient times for cooking purposes apart from that olive oil was used as a healthy massage oil by romans babylonians egyptians and other ancient civilizations in ancient times

the swiss photographer discovers a sculptural side to the olive trees that grow throughout the mediterranean swiss photographer jacques berthet born 1949 has long been interested in the olive tree for its botanical beauty and symbolic significance in a

variety of cultures both ancient and modern however berthet has remarked that he did not truly discover the real aesthetic possibilities of the olive tree until he visited spain and decided to embark on a photography project documenting olive groves across the mediterranean from the alentejo region in portugal to the pleistos valley at delphi passing through kabylia tunisia to the middle east in israel and the west bank the olive plants in berthet s series appear not as horticultural specimens but as sculptures crafted by farmers in collaboration with nature in each photograph berthet frames a single tree against the backdrop of the greater grove in which it is situated creating an illustrative effect through the backlighting and black and white treatment
