can you resist everything except temptation in a hedonistic age full of distractions it is hard to possess willpower or in fact even understand why we should need it yet it is actually the most important factor in achieving success and a happy life shown to be more significant than money looks background or intelligence this book reveals the secrets of self control for years the old fashioned even victorian value of willpower has been disparaged by psychologists who argued that we are largely driven by unconscious forces beyond our control here roy baumeister one of the world's most esteemed and influential psychologists and journalist john tierney turn this notion on its head they show us that willpower is like a muscle that can be strengthened with practice and improved over time the latest laboratory work shows that self control has a physical basis to it and so is dramatically affected by simple things such as eating and sleeping to the extent that a life changing decision may go in different directions depending on whether it is made before or after lunch you will discover how babies can be taught willpower the joys of the to do not list the success of alcoholics anonymous the pointlessness of diets and the secrets to david blaine's stunts there are also fascinating personal stories from explorers students soldiers ex addicts and parents based on years of psychological research and filled with practical advice this book will teach you how to gain from self control without pain and discover the very real power in willpower the results are nothing short of life changing

why do america's public schools seem unable to meet today's social challenges as competing interest groups vie over issues like funding and curricula we seem to have lost sight of the democratic purposes originally intended for public education public schools were envisioned by the founders as democratically run institutions for instilling civic values but today's education system seems more concerned with producing good employees than good citizens meanwhile our country's diversity has eroded consensus about citizenship and the professionalization of educators has diminished public involvement in schools this volume seeks to demonstrate that the democratic purposes of education are not outmoded ideas but can continue to be driving forces in public education nine original articles by some of today's leading education theorists cut a broad swath across the political spectrum to examine how those democratic purposes might be redefined and revived it both establishes the intellectual foundation for revitalizing american schools and offers concrete ideas for how the educational process can be made more democratic the authors make a case for better empirical research about the politics of education in order to both reconnect schools to their communities and help educators instill citizenship an initial series of articles reexamines the original premise of american education as articulated by important thinkers like jefferson and dewey a second group identifies flaws in how schools are currently governed and offers models for change a final section analyzes the value conflicts posed by the twin strands of democratic socialization and governance and their implications for education policy spanning philosophy history sociology and political science this book brings together the best current thinking about the specifics of education policy vouchers charter schools national testing and about the role of deliberation in a democracy it offers a cogent alternative to the exchange paradigm and shows how much more needs to be

understood about an issue so vital to america s future

this engrossing and evocative account of the profound changes overtaking china explores the major dilemmas it confronts at the turn of the millennium shanghai born and western educated cheng li provides the unique dual perspective of a local resident and a political scientist who returned to his homeland to observe from the grassroots china s remarkable social transformations during his travels li interviewed people from all walks of life including local officials technocrats entrepreneurs intellectuals and migrant laborers his first hand account shows how broad changes in rural industrialization urban privatization and internal migration have deeply influenced people s lives and ways of thinking the magnitude of these transformations is unprecedented in chinese history his account brings a sense of immediacy to the crucial issues that have bedeviled the country official corruption growing disparities between rich and poor the halting reform of state owned enterprises transportation and infrastructure bottlenecks and environmental degradation in rediscovering his native country full of energy irony paradox and contradiction li challenges some mainstream perceptions of china and presents a fresh perspective on u s sino relations during this period of uncertainty his clear eyed and engaging account provides the reader with the sounds and smells tastes and textures of this rapidly changing country

our summary is short simple and pragmatic it allows you to have the essential ideas of a big book in less than 30 minutes as you read this summary you will discover that developing your willpower allows you to have a more satisfying life and encourages the fulfillment of your projects you will also discover that willpower is not an abstract notion the anterior cingulate cortex is the part of the brain involved in self control by dint of

using willpower to restrain emotions impulses thoughts the brain slows down it thus becomes more difficult to control oneself everyone has a limited reservoir of willpower the will is carburized by glucose in order to achieve one's goals it is necessary to be satisfied with only one project to carry out in fact aiming at various objectives is ineffective to possess self control is to have the capacity to overcome one's individualism to know how to turn away from oneself improves the will sharing your goals with others is an incentive especially if they have the opportunity to check on your progress the will allows you to replace automatisms by more adequate responses to requests learning to improve your self control ensures that you are protected from desires that hinder success this means for example stopping the exhaustion of fighting against the urge to consume sweets all the time or to watch tv rather than work it is possible to become more satisfied by practicing self control self control offers many benefits and provides emotional stability for a happier life buy now the summary of this book for the modest price of a cup of coffee

the authors review the latest research to report key findings on willpower and offer practical advice for increasing it

the power of this book lies in joseph grassi's insight that the gospels were written as dramatic narratives for centuries the main contact people had with the gospels was in hearing them proclaimed and performed the proclaimers and the listeners did not consider jesus a dead person of the distant past but as present here and now to believers the actual person narrating the gospel was only a channel or instrument of jesus actual words jesus was speaking to them with all the dynamic power and effect that he had on his audiences years and centuries ago in galilee the gospel audience

heard his words not merely in terms of valuable information but also as empowerment and energy to accomplish the things they heard the stories of miracles healings and forgiveness were reminders that the same events were now happening again through jesus presence in their midst rediscovering the jesus story will help the reader rediscover the passion and vitality of the gospels each particular story is accompanied by the necessary background a modern audience needs to discover the gospel anew this includes the background of the hebrew scriptures along with guides to the meaning of each story within each gospel s dramatic and literary pattern at the end of each section the reader will find pathways to further discovery and suggestions for keeping a personal journal rediscovering the jesus story allows the reader to enter into the gospels in a deeper way than ever before book jacket title summary field provided by blackwell north america inc all rights reserved

rediscovering america vividly explores the life of john muir and the paths he traveled as immigrant inventor itinerant botanist and ultimately pioneering conservationist

rediscovering gold in the st century is a primer for both the interested investor and collector that traces the history of u s gold coins valuation and pricing factors market cycles independent certification and the effect that growing public demand has upon the shrinking supply of rare gold coins
