written and beautifully illustrated this is the perfect art instruction guide to pencil and ink drawing it explores materials and tools different ways of handling strokes and lines techniques for establishing and conveying tones and shadows and technical tips other useful features include 28 step by step demonstrations numerous lessons and 474 black and white and 73 color illustrations

this beautiful volume is illustrated with 84 full color reproductions of the artist s work plus black and white contextual photographs

new scholarship and interpretation of flavin s work also appears in the form of three critical essays by experts and an extensive chronology comprehensive bibliography and exhibition history in addition this book includes flavin s text in daylight or cool white an autobiographical sketch originally published in artforum in 1965 and two interviews with the artist one from 1972 and the other from 1982 book jacket

winner of the 2018 choice award for outstanding academic title praise for previous editions this is a brilliantly clear introduction and indeed reframing of the history and philosophy of science in terms of worldviews and their elements in addition the book is incredibly well informed from both a scientific and philosophical angle highly recommended scientific and medical network unlike many other introductions to philosophy of science dewitt s book is at once historically informative and philosophically thorough and

rigorous chapter notes suggested readings and references enhance its value choice written in clear and comprehensible prose and supplemented by effective diagrams and examples worldviews is an ideal text for anyone new to the history and philosophy of science as the reader will come to find out dewitt is a gifted writer with the unique ability to break down complex and technical concepts into digestible parts making worldviews a welcoming and not overwhelming book for the introductory reader history and philosophy of the life sciences vol 28 2 now in its third edition worldviews an introduction to the history and philosophy of science strengthens its reputation as the most accessible and teachable introduction to the history and philosophy of science on the market geared toward engaging undergraduates and those approaching the history and philosophy of science for the first time this intellectually provocative volume takes advantage of its author s extensive teaching experience parsing complex ideas using straightforward and sensible examples drawn from the physical sciences building on the foundations which earned the book its critical acclaim author richard dewitt considers fundamental issues in the philosophy of science through the historical worldviews that influenced them charting the evolution of western science through the rise and fall of dominant systems of thought chapters have been updated to include discussion of recent findings in quantum theory general relativity and evolutionary theory and two new chapters exclusive to the third edition enrich its engagement with radical developments in contemporary science at a time in modern history when the nature of truth fact and reality seem increasingly controversial the third edition of worldviews presents complex concepts with clarity and verve and prepares inquisitive minds to engage critically with some of the most exciting questions in the philosophy of science

sculptor poet diarist graphic designer pioneer artist s book maker performer publisher musician and most of all provocateur dieter roth has long been beloved as an artist s artist known for his mistrust of all art institutions and commercial galleries he once referred to museums as funeral homes he was also known for his generosity to friends his collaborative spirit and for including his family in his art making much to the frustration of any gallery that tried to exhibit his work supposedly none more than once roth

thumbed his nose at those who valued high purpose and permanence in art constantly trying to undo his art education he would set up systems that discouraged the conventional and the consistent he drew with both hands at once preserved the discarded and reveled in the transitory grease stains mold formations insect borings and rotting foodstuffs were just some of the materials used both out of a fascination with their painterly textural aspects and for their innate ability to make time visible and play to chance more is better he once said and more there always was roth never stopped working and he believed that everything could be art from his sketch pad to the table he sat at the telephone he talked on or his friend s kitchen the kitchen was later sold to a museum roth time a dieter roth retrospective is published to mark the first major survey exhibition of the artist s work since his death in 1998 five decades of drawings graphics books paintings objects installations films and video works are represented the publication offers a window into roth s creative world reflecting him and his era the exhibition is organized by the schaulager with the museum of modern art new york and the museum ludwig cologne

a vivid engaging account of the artists and artworks that sought to make sense of america s first total war grand illusions takes readers on a compelling journey through the major historical events leading up to and beyond us involvement in wwi to discover the vast and pervasive influence of the conflict on american visual culture david m lubin presents a highly original examination of the era s fine arts and entertainment to show how they ranged from patriotic idealism to profound disillusionment in stylishly written chapters lubin assesses the war s impact on two dozen painters designers photographers and filmmakers from 1914 to 1933 he considers well known figures such as marcel duchamp john singer sargent d w griffith and the african american outsider artist horace pippin while resurrecting forgotten artists such as the mask maker anna coleman ladd the sculptor gertrude vanderbilt whitney and the combat artist claggett wilson the book is liberally furnished with illustrations from epoch defining posters paintings photographs and films armed with rich cultural historical details and an interdisciplinary narrative approach david lubin creatively upends traditional understandings of the great war s effects on the visual arts in america

papers presented to j e littlewood on his 80th birthday issued as 3d ser v 14 a 1965
