women accomplish nearly two thirds of total work around the world including household duties comprise one third of the formal labor force but women receive one tenth of the world s income and own only one hundredth of the world s property entrepreneurship is a vehicle for advancing the lives of women around the world this book brings together 49 distinguished entrepreneurship scholars to provide a unique global vision of the wellbeing of women entrepreneurs necessary for fostering sustainable development and inclusive societies although gender inequality is an important issue solutions leading to gender parity are far from reaching ideal levels in the formal workplace and globally meanwhile the number of women involved in entrepreneurship is growing exponentially because there are more opportunities for women to own a business and be their own boss this offers women the most desirable and flexible working conditions that better align

with women's lifestyles and multiple family responsibilities however entrepreneurial activities are demanding and complex compared to men women face special challenges that deserve close attention this book presents research and programs to effectively support women entrepreneurs in reaching levels of wellbeing required to ensure business sustainability and personal prosperity offering a diversity perspectives from around the globe the wellbeing of women in entrepreneurship is of great interest to academics and practitioners working in teaching and research in disciplines including business management entrepreneurship organizational change human centered management human resources sustainable development and women's studies

this book explores concrete examples of different strategies and activities aimed at creating and embedding critically reflective learning and working environments within organisations whose prime function is social care critical reflection has long been recommended as a general professional skill and is a core component of the practice capabilities in social work in countries across the western world however despite unequivocal support for it in social work education sustaining critical reflection within organisations as both an individual and collective practices supported by organisational cultures is problematic with contributions from social work practitioners and educators who have sought to embed critical reflection into broader activities and cultures within their organizations the book addresses common features of critical reflection and challenges and benefits in specific case studies this book will inspire and develop new thinking and vision about being critically reflective in organisations and facilitate efforts to improve the learning and working experience in addition to that of service quality and delivery it will be required reading for all undergraduate and postgraduate social work modules focusing on management leadership organizational change and professional education

this world atlas presents a comprehensive overview of the gas hydrate systems of our planet with contributions from esteemed international researchers from academia governmental institutions and hydrocarbon industries the book illustrates describes and discusses gas hydrate systems their geophysical evidence and their future prospects for climate change and continental margin geohazards from passive to active margins this includes passive volcanic to non volcanic margins including glaciated and non glaciated margins from high to low latitudes shallow submarine gas hydrates allow a glimpse into the past from the last glacial maximum lgm to modern environmental conditions to predict potential changes in future stability conditions while deep submarine gas hydrates remained more stable this demonstrates their potential for rapid reactions for some gas hydrate provinces to a warming world as well as helping to identify future prospects for environmental research three dimensional and high resolution seismic imaging technologies provide new insights into fluid flow systems in continental margins enabling the identification of gas and gas escape routes to the seabed within gas hydrate environments where seabed habitats may flourish the volume contains a method section detailing the seismic imaging and logging while drilling techniques used to characterize gas hydrates and related dynamic processes in the sub seabed this book is unique as it goes well beyond the geophysical monograph series of natural gas hydrates and textbooks on marine geophysics it also emphasizes the potential for gas hydrate research across a variety of disciplines observations of bottom simulating reflectors bsrs in 2d and 3d seismic reflection data combined with velocity analysis electromagnetic investigations and gas hydrate stability zone ghsz modelling provide the necessary insights for academic interests and hydrocarbon industries to understand the potential extent and volume of gas hydrates in a wide range of tectonic settings of continental margins gas hydrates control the largest and most dynamic reservoir of global carbon

especially 4d 3d seismic but also 2d seismic data provide compelling sub seabed images of their dynamical behavior sub seabed imaging techniques increase our understanding of the controlling mechanisms for the distribution and migration of gas before it enters the gas hydrate stability zone as methane hydrate stability depends mainly on pressure temperature gas composition and pore water chemistry gas hydrates are usually found in ocean margin settings where water depth is more than 300 m and gas migrates upward from deeper geological formations this highly dynamic environment may precondition the stability of continental slopes as evidenced by geohazards and gas expelled from the sea floor this book provides new insights into variations in the character and existence of gas hydrates and bsrs in various geological environments as well as their dynamics the potentially dynamic behavior of this natural carbon system in a warming world its current and future impacts on a variety of earth environments can now be adequately evaluated by using the information provided in the world atlas this book is relevant for students researchers governmental agencies and oil and gas professionals some familiarity with seismic data and some basic understanding of geology and tectonics are recommended

this book constitutes a systematic and critical assessment of the nature evolution and prospects of the development partnership between the 79 member african caribbean and pacific acp group of states and the 28 member european union eu a core theme that runs through the work is that the acp s partnership with the eu remains an important framework for addressing development challenges in the african caribbean and pacific regions but needs to adapt to changes in the global political economy as well as internal developments in both the acp and the eu to sustain its relevance and effectiveness this is crucial for the acp group in particular given its origins in and core focus on development cooperation with europe the authors in this volume examine the history of the acp eu partnership since 1975 the eu s

relationship with the african caribbean and pacific regions individually acp experiences with economic partnership agreements with the eu and new political issues in particular security migration and diasporas shedding light on the future prospects of this relationship this book will be of interest to both scholars and policymakers working on the acp eu relationship and related development issues including trade aid security and migration
