the idea of progress stood at the very center of the intellectual world of eighteenth century britain closely linked to every major facet of the british enlightenment as well as to the economic revolutions of the period drawing on hundreds of eighteenth century books and pamphlets david spadafora here provides the most extensive discussion ever written of this prevailing sense of historical optimism

the sustained and profound debate on the rights of man is investigated the practical efforts made to educate public opinion and to increase popular participation in public affairs are explored and so are the popular attempts made to defend the existing constitution

part of the oxford illustrated history of britain this book spans from the aftermath of the revolution of 1688 to pitt the younger s defeat at attempted parliamentary reform

a standard introduction to the period which has retained its popularity with generations of students

a new collection of essays which challenges many existing assumptions particularly the conventional models of separate spheres and economic change all the essays are specifically written for a student market making detailed research accessible to a wide readership and the opening chapter provides a comprehensive overview of the subject describing the development of gender history as a whole and the study of eighteenth century england this is an exciting collection which is a major revision of the subject

a useful book the modesty of which tends to veil the prodigious learning which it condenses the times literary supplement

luxury and pleasure in eighteenth century britain explores the invention making and buying of new semi luxury and fashionable consumer goods during the eighteenth century it follows these goods from china tea ware to all sorts of metal ornaments such as candlesticks cutlery buckles and buttons as they were made and shopped for then displayed in the private domestic settings of britain s urban middling classes it tells the stories and analyses the developments that led from a global trade in eastern luxuries beginning in the sixteenth century to the new global trade in british made consumer goods by the end of the eighteenth century these new products regarded as luxuries by the rapidly growing urban and middling class people of the eighteenth century played an important part in helping to proclaim personal identities and guide social interaction customers enjoyed shopping for them they took pleasure in their beauty ingenuity or convenience all manner of new products appeared in shop windows sophisticated mixed media advertising seduced customers and created new wants this unparalleled product revolution provoked philosophers and pundits to proclaim a new luxury one that reached out to the middling and trading classes unlike the elite and corrupt luxury of old luxury and pleasure in eighteenth century britain is cultural history at its best built on a fresh empirical base drawn directly from customs accounts advertising material company papers and contemporary correspondence maxine berg traces how this new consumer society of the eighteenth century and the products first traded then invented to satisfy it stimulated industrialization itself global markets for the consumer goods of private and domestic life inspired the industrial revolution and british products won the world

the present collection brings together a series of studies by peter marshall on british imperial expansion in the later 18th century some essays focus on the thirteen north american colonies the west indies and british contact with china those dealing specifically with india

have appeared in the author's trade and conquest studies on the rise of British domination in India the majority culminating in the four addresses on Britain and the world in the eighteenth century delivered as president of the Royal Historical Society deal with the processes and dynamics of empire building and aim to bring together the history of Asia and the Atlantic the themes investigated include the pressures that induced Britain to pursue new imperial strategies from the mid 18th century Britain's contrasting fortunes in India and North America and the way in which the British adjusted their conceptions of empire from one based on freedom and the domination of the seas to one which involved the exercise of autocratic rule over millions of people and great expanses of territory

this first volume in the new Palgrave History of Britain series builds a picture of 18th century society and politics readers will find this a valuable guide to the period and will enjoy the lightness of touch with which a formidable body of knowledge is deployed

despite the considerable volume of research into various aspects of the social and economic cultural and political history of eighteenth century British towns remarkably little has focused upon or even reflected upon the distinctive experience of women in the urban context much of what research there is has explored the experience of laboring or impoverished women or women of the social elite by contrast the essays in this collection take up the study of the participation of middling women in urban life this volume brings into sharper focus the relationship between changes consequent upon urban development and shifts in the pattern of gender relations in the 18th century the contributors address such themes as the extent to which to what extent urban change accelerated a redefinition of gender relations the connections between urban growth changing definitions of citizenship and the emergence of the male gendered political subject the role of women in a literate consumer and industrializing society the place of women's networks in the economic political and social life of the town and the distinctive role played by women in areas such as philanthropy and business and how the development of urban society in turn inflected contemporary conceptualizations of gender

miege g the present state of Great Britain an eighteenth century self portrait swift j the examiner no 14 a Tory view of war and the moneyed interest wrigley e a simple model of London's importance in changing English society and economy 1650-1750 habakkuk h j England's nobility plumb j h Robert Walpole's world the structure of government Sutherland l the city of London in eighteenth century politics Hughes e the professions in the eighteenth century Namier sir l the social foundations

this authoritative companion introduces readers to the developments that lead to Britain becoming a great world power the leading European imperial state and at the same time the most economically and socially advanced politically liberal and religiously tolerant nation in Europe covers political social cultural economic and religious history written by an international team of experts examines Britain's position from the perspective of other European nations

the church of the eighteenth century was still reeling in the wake of the huge religious upheavals of the two previous centuries though

this was a comparatively quiet period this book shows that for the whole period religion was a major factor in the lives of virtually everybody living in britain and ireland yates argues that the established churches anglican in england ireland and wales and presbyterian in scotland were an integral part of the british constitution an arrangement staunchly defended by churchmen and politicians alike the book also argues that although there was a close relationship between church and state in this period there was also limited recognition of other religions this led to britain becoming a diverse religious society much earlier than most other parts of europe during the same period competition between different religious groups encouraged ecclesiastical reforms throughout all the different churches in britain

this long awaited second edition sees this classic text by a leading scholar given a new lease of life it comes complete with a wealth of original material on a range of topics and takes into account the vital research that has been undertaken in the field in the last two decades the book considers the development of the internal structure of britain and explores the growing sense of british nationhood it looks at the role of religion in matters of state and society in addition to society's own move towards a class based system commercial and imperial expansion britain's role in europe and the early stages of liberalism are also examined this new edition is fully updated to include revised and thorough treatments of the themes of gender and religion and of the 1832 reform act new sections on commerce and empire and britain and europe several new maps and charts a revised introduction and a more extensive conclusion updated note sections and bibliographies the long eighteenth century is the essential text for any student seeking to understand the nuances of this absorbing period of british history

the present collection brings together a series of studies by peter marshall on british imperial expansion in the later 18th century some essays focus on the thirteen north american colonies the west indies and british contact with china those dealing specifically with india have appeared in the author's trade and conquest studies on the rise of british domination in india the majority culminating in the four addresses on britain and the world in the eighteenth century delivered as president of the royal historical society deal with the processes and dynamics of empire building and aim to bring together the history of asia and the atlantic the themes investigated include the pressures that induced britain to pursue new imperial strategies from the mid 18th century britain's contrasting fortunes in india and north america and the way in which the british adjusted their conceptions of empire from one based on freedom and the domination of the seas to one which involved the exercise of autocratic rule over millions of people and great expanses of territory

this is a broad ranging study on the 18th century using a variety of contemporary literary texts as historical evidence to explain the dominant ideologies and attitudes of the time and considering the implications on policy of an increasingly news conscious and articulate society

describes various aspects of life in eighteenth century england discussing politics class and race family housing clothing work and

wages education food and drink behavior hygiene and other topics

georgian britain experienced a cultural renaissance in the form of the enlightenment the establishment of an empire the beginning of the first industrial revolution
