as 21st century citizens of developed countries we are constantly bombarded by numbers in every aspect of our lives almost automatically we learn to interpret how numbers are used in our language what magnitude of numbers we expect to hear in particular contexts how people in our community express degrees of confidence in the reliability of any particular number etc context of this kind is lacking when we read a historical narrative composed in an ancient language from a world vastly different from ours in quantifying mentalities catherine rubincam helps overcome this barrier to our accurate understanding of the numbers in the works of five major ancient greek historians by providing a standard against which their credibility can be more accurately judged this systematic quantified study is based on the compilation of statistics concerning a standard constellation of aspects of all the numbers in the historical works of the five earliest wholly or at least substantially surviving ancient greek historians herodotus thucydides xenophon anabasis and hellenica polybius and diodorus siculus such a comprehensive study has not been attempted before for scholars reading and writing about the history of ancient greece the volume offers a tool for interpreting the numbers in these ancient texts with more sensitivity to the world in which they were written standard aspects of number use captured by the coding system are the different types of number cardinals ordinals compounds and non explicit but definite numbers the subject category to which each number belongs time distance size military population money and miscellaneous and the types of any qualifications attached to it approximating comparative alternative and emphatic the statistics also facilitate comparisons of every aspect of number use between authors and texts enabling the delineation of a numeric profile for each one this allows us

to read these texts with a greater sensitivity to how they might have sounded to the author and his original readers thus providing a firmer foundation for reconstructing or interpreting ancient greek history
