in this brilliantly conceived and clearly argued discussion of the relationship between high and popular culture  
herbert gans outspoken advocate of cultural pluralism  
questions the universality of high culture standards

the fourteen essays in this volume address the pros and cons of multiculturalism and explore its relationship with liberal democracy

why do america s public schools seem unable to meet today s social challenges as competing interest groups vie over issues like funding and curricula we seem to have lost sight of the democratic purposes originally intended for public education public schools were envisioned by the founders as democratically run institutions for instilling civic values but today s education system seems more concerned with producing good employees than good citizens meanwhile our country s diversity has eroded consensus about citizenship and the professionalization of educators has diminished public involvement in schools this volume seeks to demonstrate that the democratic purposes of education are not outmoded ideas but can continue to be driving forces in public education nine original articles by some of today s leading education theorists cut a broad swath across the political spectrum to examine how those democratic purposes might be redefined and revived it both establishes the intellectual foundation for revitalizing american schools and offers concrete ideas for how the educational process can be made more democratic the authors make a case for better empirical research about the politics of education in order to both reconnect schools to their communities and help educators instill citizenship an initial series of articles reexamines the original premise of american education as articulated by important thinkers like jefferson and dewey a second group identifies flaws in how schools are currently governed and offers models for change a final section analyzes the value conflicts posed by the twin strands of democratic socialization and governance and their implications for education policy spanning philosophy history sociology and political science this book brings together the best current thinking about the specifics of education policy vouchers charter schools national testing and about the role of deliberation in a democracy it offers a cogent alternative to the exchange paradigm and shows how much more needs to be understood about an issue so vital to america s future

reassesses the short life and career of american essayist critic and founder of cultural radicalism bourne 1886 1918 known today mostly for his opposition to us military involvement in europe and warnings about the military industrial complex vaughan political science u of minnesota duluth argues that his stance from outside establishment perspectives was not a retreat from politics as many have claimed but a form of political engagement free from the suppositions that impede genuine debate and democratic change annotation copyrighted by book news inc portland or

responses to the arguments of e d hirsch jr in cultural literacy what every american needs to know are at the core of this thought provoking volume the thirteen contributors were asked to reflect on how various contexts may reveal rather than obscure the character of a work of art the result is a lively and wide ranging with each chapter offering a different perspective on one of the most discussed topics in education today originally published as a special issue of the journal of aesthetic education the book includes selection by experts in the visual arts literature music dance and theater

this volume of the townsend papers in the humanities commemorates the twenty fifth year of the doreen b townsend center for the humanities at the university

of california berkeley as such the volume is an attempt to capture the breadth and depth of lectures and events presented by the center many are revised versions of lectures and presentations organized in connection with the annual appointment of the avenali professor in the humanities at berkeley generously funded by joan and peter avenali or berkeley s una s lecturer endowed in the memory of una smith ross class of 1911 several are based on other events presented by the center over the years such as the humanities perspectives on aging program or the futures lecture series organized to commemorate the center s tenth anniversary all are the reflection of a public event before a live audience we have chosen to retain references to the live event where they occur though space limitations would not permit the inclusion of audience questions

a comprehensive dictionary of sexuality this work covers 6000 sexually related terms currently in use in the fields of the social and psychological sciences biology and medicine religion and law entries offer insights into contemporary technical terms and are cross referenced
