insights into how an individual innovation was subsequently developed and diffused across space and time that is the patterns by which the new eventually becomes a necessity in our daily lives through all of this we gain a deeper appreciation of the unfolding of global history from its origins in small communities to the densely populated large countries in our present world finally our use of a broad based understanding of innovation allows us to restore culture in all its individual and institutionalized aspects spiritual artistic intellectual scientific to its rightful place alongside technology environment politics and socio economic conditions that is understanding innovation in this way allows this text to help illuminate the full range of human ingenuity over time and space in a comprehensive evenhanded and open ended fashion
