this book will transform the way you think about design by showing how integral it is to our daily lives from the spoon we use to eat our breakfast cereal to the medical equipment used to save lives john heskett goes beyond style and taste to look at how different cultures and individuals personalise objects

there are many stories we can tell about the past and we are not perhaps as free as we

might imagine in our choice of which stories to tell or where those stories end john arnold s very short introduction is a stimulating essay about how we study and understand history the book begins by inviting us to think about various questions provoked by our investigation of history and explores the ways these questions have been answered in the past concepts such as causation interpretation and periodization are introduced by means of concrete examples of how historians work giving the reader a sense of the excitement of discovering not only the past but also ourselves about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

human beings naturally desire knowledge but what is knowledge is it the same as having an opinion highlighting the major developments in the theory of knowledge from ancient greece to the present day jennifer nagel uses a number of simple everyday examples to explore the key themes and current debates of epistemology

for 30 years pulitzer prize winning journalist linda greenhouse chronicled the activities of the u s supreme court and its justices as a correspondent for the new york times in this very short introduction she draws on her deep knowledge of the court s history and of its written and unwritten rules to show readers how the supreme court really works greenhouse offers a fascinating institutional biography of a place and its people men and women who exercise great power but whose names and faces are unrecognized by many americans and whose work often appears cloaked in mystery how do cases get to the supreme court how do the justices go about deciding them what special role does the chief justice play what do the law clerks do how does the court relate to the other branches of government greenhouse answers these questions by depicting the justices as they confront deep constitutional issues or wrestle with the meaning of confusing federal statutes throughout the author examines many individual supreme court cases to illustrate points under discussion ranging from marbury v madison the seminal case which established judicial review to the recent district of columbia v heller 2008 which struck down the district of columbia s gun control statute and which was surprisingly the first time in its history that the court issued an authoritative interpretation of the second amendment to add perspective greenhouse also compares the court to foreign courts revealing interesting differences for instance no

other country in the world has chosen to bestow life tenure on its judges the second edition of greenhouse's very short introduction tracks the changes in the court's makeup over the last eight years considers the landmark decisions of the obama and trump eras and reexamines the precarious fates of such precedents as *roe v wade* a superb overview packed with telling details this volume offers a matchless introduction to one of the pillars of american government

without writing there would be no records no history no books and no emails writing is an integral and essential part of our lives but when did it start why do we all write differently and how did writing develop into what we use today all of these questions are answered in this very short introduction starting with the origins of writing five thousand years ago with cuneiform and egyptian hieroglyphs andrew robinson explains how these early forms of writing developed into hundreds of scripts including the roman alphabet and the chinese characters he reveals how the modern writing symbols and abbreviations we take for granted today including airport signage and text messaging resemble ancient ones much more closely than we might think about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable
