examines all the world's civilizations including those in the western tradition but also those civilizations sometimes neglected in world history texts maintaining a focus on social history explores gender class economic and intellectual issues while examining patterns of inequality and human agency throughout world history instructors of world civilization surveys that prefer a global account of history

the west is popularly perceived as america's last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into america's land of opportunism from sun valley to santa fe towns throughout the west have been turned over to outsiders and not just to those who visit and move on but to those who stay and control although

tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil's bargain in the making hal rothman examines the effect of twentieth century tourism on the west and exposes that industry's darker side he tells how tourism evolved from grand canyon rail trips to sun valley ski weekends and disneyland vacations and how the post world war ii boom in air travel and luxury hotels capitalized on a surge in discretionary income for many americans combined with newfound leisure time from major destinations like las vegas to revitalized towns like aspen and moab rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers and because tourism often results in a redistribution of wealth and power to outsiders observes rothman it represents a new form of colonialism for the region by depicting the nature of tourism in the american west through true stories of places and individuals that have felt its grasp rothman doesn't just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take deftly balancing historical perspective with an eye for what's happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the west whose life is touched by that industry can afford to ignore

a path breaking book the first to examine the evolution of community organizing in u s cities while embracing mobilization the contributors acknowledge the challenges inherent in globalization and the norms and values that shape contemporary american culture still they reaffirm that community organizing has an important role to play as part of a broader progressive movement

in this new book jean françois bayart offers a radically new account of globalization which challenges the way it is interpreted by neo liberals and by the anti globalization movement

to confront the twenty first century challenges to our economy and national security our education system must be strengthened to increase the foreign language skills and cultural awareness of our students america's continued global leadership will depend on our students abilities to interact with the world community both inside and outside our borders this report warns that the u s will become less competitive in the global economy because of declining quality foreign language education at the college and

high school level additionally the american public's deficiency in foreign languages and cultures is hampering efforts to counter terrorist threats to have a citizenry that is knowledgeable of world regions global issues and foreign cultures as well as conversant in other languages we will need to strengthen the curriculum of the k 12 education system as well as that of our colleges universities and professional schools although there is much that can be done by states governors business leaders and others leadership by the federal government will be crucial in jump starting this effort this report recommends 1 teaching international content across the curriculum and at all levels of learning to expand american students knowledge of other countries and cultures 2 expanding the training pipeline at every level of education to address the paucity of americans fluent in foreign languages especially critical less commonly taught languages such as arabic chinese hindi japanese korean persian farsi russian and turkish and 3 national leaders political leaders as well as the business and philanthropic communities and the media should educate the public about the importance of improving education in languages other than english and in international studies appended are 1 a timeline of important developments in international studies and foreign language education and 2 major federal legislation pertaining to international studies and foreign language education contains 167 endnotes this report represents a statement by the research and policy committee of the committee for economic development for the executive summary of this report see ed502295

this provocative book takes a new approach toward understanding the uneven flows of global communications rather than guiding its discussion by geography types of media or traditional separations of power and resistance global communications examines political economic power and communication in relation to historically specific encounters with modernity it underscores lived experiences in its approach to globalization showing that the state and the market can both be sites of empowerment just as civil society might also be a site of repression taking a political economic analysis of communication and culture this dynamic group of international authors looks beyond developments in the north american information and culture industries to map new forms of citizenship and exclusion the chapters spotlight china ghana india japan palestine russia singapore and venezuela and foreground the transnational formations of the european union the pan arab and spanish speaking markets and civil society actors in sub saharan african the middle east and north america theoretically driven and empirically grounded global communications defines communication broadly to include production circulation and consumption and addresses urgent questions about the inequalities of globalization and the possibilities of hybrid cultural forms and practices
