for geographers across the globe this book provides the arguments for a return to the teaching of geography and why they should reject the politicisation of the subject by education policy makers and politicians standish s careful critique shows the necessity of a depoliticised geography curriculum the irony of which would be that it would ensure that every child could point to iraq iran and afghanistan on a map prof dennis hayes oxford brookes university uk a prescient and critical analysis of the changing face of geography teaching this book deserves to be widely read and debated alex standish s book puts current trends in geography teaching in historical and critical context it comprises a forthright and timely defence of geographical education for its own sake dr jim butcher frsa department of sport science tourism and leisure canterbury christ church university since the early 1990s educational policy makers and some subject leaders have been seeking to fundamentally change the teaching of geography in uk and us schools from a subject which encourages students to explore spatial concepts ideas and skills to a more ethics based subject concerned with the promotion of environmentalism cultural diversity and social justice in this book the new approach is critically examined within a historical and ideological context addressing a number of fundamental questions should geography be used as a tool for the delivery of citizenship ideals how does this affect the intellectual and moral value of geographical education for young people if the state and teachers are taking more responsibility for the values attitudes and emotional responses of students how will they learn to develop these qualities for themselves if global perspectives shift the focus of education from learning about the outside world to learning about the self what is its vision of social progress and conception of social change this book advocates a return to liberal models of education arguing that the new approach to geography currently being promoted for schools fundamentally undermines the educational value

of the subject and the freedom of young people to shape the world in which they live a vital resource for teachers and student teachers alike global perspectives in the geography curriculum makes a significant contribution to the growing debate about the future direction of the discipline itself

in an age of unprecedented corporate and political control over life inside of educational institutions this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in k 16 schools to perpetuate their interests at the expense of minoritized social groups the contributors provide a comprehensive examination of how textbooks the most dominant cultural force in which corporations and political leaders impact the schooling curricula shape students thoughts and behavior perpetuate power in dominant groups and trivialize social groups who are oppressed on the structural axes of race class gender sexuality and disability several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant western narratives that normalize and privilege patriotism militarism consumerism white supremacy heterosexism rugged individualism technology and a positivistic conception of the world finally the book highlights several textbooks that challenge readers to rethink their stereotypical views of the other to reflect upon the constitutive forces causing oppression in schools and in the wider society and to reflect upon how to challenge corporate and political dominance over knowledge production

includes section reviews and other bibliographical material

school textbooks in iran saudi arabia egypt and elsewhere in the arab and muslim worlds are filled with anti western and anti israel propaganda most readers will be shocked to discover that history and geography textbooks widely used in america s elementary and secondary classrooms contain some of the very same inaccuracies about jews judaism and israel did you know that there is no record of any important jewish contribution to the sciences world civilizations thomson wadsworth or that christianity was started by a young palestinian named jesus the world scott foresman pearson supplemental materials and other classroom influences are even worse the trouble with textbooks exposes the poor scholarship and untruths in textbooks about jews and israel the problems uncovered in this ground breaking analysis are instructive and illustrate the need for reform in the way textbooks are developed written marketed and distributed substitute another area how we teach american history western civilization or comparative religion and we have another equally intriguing case study the trouble with textbooks shows what can go terribly wrong in discussing religion geography culture or history and in this case all of them the trouble with textbooks tells a cautionary tale for all readers whatever their background of how textbooks that americans depend on to infuse young people with the values for good citizenship and to help acculturate students into the multicultural salad that is american life instead disparage some groups and teach historical distortions with millions of young people using these textbooks each year the denigration of some should be a concern for all

establish a link with the world geography helps students relate distant places and cultures to their own lives each unit addresses physical geography human geography and major issues of a specific region of the world geography offers a vibrant visual approach that captures students attention large concise maps and numerous charts and graphs make the information accessible special chapter features are provided by rand mcnally students are shown how to make comparisons between physical and human geography by exploring the similarities and differences across cultures geography offers high interest features effective case studies and
