this compendium 4 vols studies the continuity flexibility and variation of structural elements in epic narratives it provides an overview of the structural patterns of epic poetry by means of a standardized stringent terminology both diachronic developments and changes within individual epics are scrutinized in order to provide a comprehensive structural approach and a key to intra and intertextual characteristics of ancient epic poetry

this is a time of our spiritual awakening a time when we are finally gaining a full understanding about just why we all choose to take on an earthly life inhabiting a physical body and enduring the ongoing ups and downs of earthly life it is no longer a question of if god exists now we know that god exists our spiritual awakening means that we fully understand and accept that god is present in our lives and that all of life is a spiritual journey

use and development of database and expert systems can be found in all fields of computer science the aim of this book is to present a large spectrum of already implemented or just being developed database and expert systems contributions cover new requirements concepts for implementations e g languages models storage structures management of meta data system architectures and experiences gained by using traditional databases in as many areas of applications as possible at least in the fields listed the aim of the book is to inspire a fruitful dialogue between development in practice users of database and expert systems and scientists working in the field

the cosmic viewpoint examines the literary and philosophical qualities essential to seneca s art of science in his natural questions seneca s meteorological theme raises our gaze from a terrestrial level to a higher more intuitive plane a conceptual climb by which seneca promotes a change of perspective in his readership towards the cosmic viewpoint

increasing importance is being attached to how greek and latin books of poems were arranged but such research has often been carried out with little attention to the physical fragments of actual ancient poetry books in this extensive study gregory

hutchinson investigates the design of greek and latin books of poems in the light of papyri including recent discoveries a series of discussions of major poems and collections from two central periods of greek and latin literature is framed by a substantial and illustrated survey of poetry books and reading and by a more theoretical discussion of structures involving books the main poets discussed are callimachus apollonius posidippus catullus horace and ovid a chapter on latin didactic includes lucretius virgil ovid and manilius
