this book offers a critical engagement with contemporary ir textbooks via a novel folklorist approach two parts of the folklorist approach are developed addressing story structures via resemblances to two fairy tales and engaging with the role of authors via framing gestures the book not only looks at how the idea of social science may persist in textbooks as many assumptions about what it means to study ir but also at how these assumptions are written into the defining stories textbooks tell and the possibilities for re negotiating these stories and the boundaries of the discipline this book will specifically engage with how the stories in textbooks constrain how it is possible to define ir through its re production as a social science discipline in the first part story structures are explored via donkeyskin and bluebeard stories which the book argues resemble some structures in textbooks that define how it is permissible to tell stories about ir in the second part the role of authors is explored via their framing gestures within a text drawing on a number of fairy tales by approaching the stories in textbooks alongside fairy tales starnes reflects back onto ir the disciplining practices in the stories textbooks tell by rendering them unfamiliar aiming to spark a critical conversation about the role of textbooks in defining the boundaries of what counts as ir and by extension the boundaries of the ir canon this book is of great interest to students and scholars of international relations

judicial politics in the united states examines the role of courts as policymaking institutions and their interactions with the other branches of government and other political actors in the u s political system not only does this book cover the nuts and bolts of the functions structures and processes of our courts and legal system it goes beyond other judicial process books by exploring how the courts interact with executives legislatures and state and federal bureaucracies it also includes a chapter devoted to the courts interactions with interest groups the media and general public opinion and a chapter that looks at how american courts and judges interact with other judiciaries around the world judicial politics in the united states balances coverage of judicial processes with discussions of the courts interactions with our larger political universe making it an essential text for students of judicial politics

in the past twenty years the study of urban politics has shifted from a predominant concern with political culture and ethos to a preoccupation with political economy particularly that of urban development urban scholars have come to recognize that cities are shaped by forces beyond their boundaries from that focus have emerged the views that cities are clearly engaged in economic competition that market processes are shaped by national policy decisions sometimes intentionally and sometimes inadvertently and that the costs and benefits of economic growth are unevenly distributed but what else needs to be said about the policies and politics of urban development to supplement prevailing theories the politics of urban development argues that the role of local actors in making development decisions merits closer study whatever the structural constraints politics still matters collectively the essays provide ample evidence that local government officials and other community actors do not simply follow the imperatives that derive from the national political economy they are able to assert a significant degree of influence over the shared destiny of an urban population the impact of the collection is to heighten awareness of local political practices and of how and why they make a difference

in this age of asymmetric warfare battles are fought more and more against armed groups of opponents such as terrorists insurgents or transnational criminal organizations this text is the first to categorize armed groups and analyze their characteristics in a systematic way to provide a thorough overview of all types of armed groups and the role they play in today's security environment drawing on international case studies and histories the work analyzes the objectives strategies and internal composition of armed groups and the environments that foster them it demonstrates that armed groups often behave in an hybrid fashion be it the criminal actions terrorists groups take to fund their goals or the role terrorist actions play in criminal organizations as such dividing lines blur governments need to figure out how where and when these armed groups are operating in zones of conflict or peace as well as their motivations structures and ultimate objectives this thorough and groundbreaking study will provide students with a strategic view of who armed groups are how to analyze them and what geopolitical and geostrategic factors influence their origins and operations
