originally published in 1983 this clear sighted study built an understanding of what human behaviour meant at the time an understanding which can still be of practical use for those who work with people in their everyday lives today the various influences on the individual are carefully examined with theoretical approaches from different standpoints considered in relation to one another from the development of the personality and behaviour patterns to the effect of family and social life culminating in the picture of a whole responsive person relationships are seen to be important and this is reflected in the selection of material ford argues that it is the social worker s role to offer guidance relating to the nature and quality of an individual s interaction with society and that this can be done more effectively if there is a practical understanding of how this interaction evolves examples of social work practice are given throughout to show how such understandings may be used

ajax applications should be open yet secure far too often security is added as an afterthought potential flaws need to be identified and addressed right away this book explores ajax and web application security with an eye for dangerous gaps and offers ways that you can plug them before they become a problem by making security part of the process from the start you will learn how to build secure ajax applications and discover how to respond quickly when attacks occur securing ajax applications succinctly explains that the same back and forth communications that make ajax so responsive also gives invaders new opportunities to gather data make creative new requests of your server and interfere with the communications between you and your customers this book presents basic security techniques and examines vulnerabilities with javascript xml json flash and other technologies vital information that will ultimately save you time and money topics include an overview of the evolving web platform including apis feeds web services and asynchronous messaging security basics including common vulnerabilities common cures state management and session management how to secure web technologies such as ajax javascript java applets active x controls plug ins flash and flex how to protect your server including front line defense dealing with application servers php and scripting vulnerabilities among web standards such as http xml json rss atom rest and xdos how to secure web services build secure apis and make open mashups secure securing ajax applications takes on the challenges created by this new generation of web development and demonstrates why web security isn t just for administrators and back end programmers any more it s also for web developers who accept the responsibility that comes with using the new wonders of the

dont believe the hype believe what you see apocalypse as we have come to fear is

not apocalypse as it truly is we live today in the time of apocalypse and for some it is pure torment for those around the world living with bombs raining down on them yes that is apocalyptic torture as we feared for those thousands and millions throughout the universe visited and killed by the deadly flu and flu like diseases sars swine flu bird flu west nile virus etc ebola tuberculosis measles cholera dengue fever ev d68 and hiv aids yes those are apocalyptic diseases as we feared for those ravished killed left homeless and totally dispossessed by these record breaking seemingly wicked weather events we are currently experiencing yes they would agree that these are for certain apocalyptic changes as we feared however given there are over seven billion of us on the planet and those apocalyptic events mentioned have only killed millions not billions of us they dont seem to rise to the level of chaos and destruction we have been conditioned to fear as being apocalyptic nevertheless our over exaggerated deep seated and conditioned fears notwithstanding armageddon is upon us and the signs of it have been for almost twenty years that we know of those above mentioned apocalyptic occurrences are the signs we were all told would be by john the revelator in revelation november 1995 to may 1996 no fewer than seventy of us were told by an angel awaki and his angels of god that the signs had already begun and that armageddon would begin in the year 2000 our story no matter how far fetched it may seem is true the evidentiary events of war disease and bizarre weather changes we witness daily provide for us the credibility of what we were told the angel shakardak told us some will see and they will believe some will not see and they will believe some will hear and they will believe and some will not hear and they will believe and then there will be those who will see and they will not believe and there will be those who will hear and they will not believe
