a spanish born jesuit trained in psychology at the university of chicago and
killed by a salvadoran death squad in 1989 martín baró devoted much of his
career to making psychology speak to the community and to the individual
this collection clarifies his importance in latin american psychology and
reveals a major force in social theory

since the mid 1980s the psychology of liberation movement has been a
catalyst for collective and individual change in communities throughout latin
america and beyond and recent political developments are making its
powerful transformative ideas more relevant than ever before psychology of
liberation theory and applications updates the activist frameworks developed
by ignacio martin baro and paulo freire with compelling stories from the
frontlines of conflict in the developing and developed worlds as social science
and psychological practice are allied with struggles for peace justice and
equality in these chapters liberation is presented as both an ongoing process
and a core dimension of wellbeing entailing the reconstruction of social
identity and the transformation of all parties involved both oppressed and
oppressors it also expands the social consciousness of professionals bringing
more profound meaning to practice and enhancing related areas such as
peace psychology as shown in articles such as these philippines the role of
liberation movements in the transition to democracy venezuela liberation
psychology as a therapeutic intervention with street youth south africa the
movement for representational knowledge muslim world religion the state
and the gendering of human rights ireland linking personal and political
development australia addressing issues of racism identity and immigration
colombia building cultures of peace from the devastation of war psychology
of liberation demonstrates the commitment to overcome social injustices and
oppression the book is a critical resource for social and community
psychologists as well as policy analysts it can also be used as a text for

graduate courses in psychology sociology social work and community studies

this book sets out the core principles for social justice in the psychological therapies from theory to practice in the therapy room and beyond

by introducing and explaining the intersection of two exciting and important areas of study this landmark work unleashes their potential to address some of the most complex and globally relevant challenges of our time in this unique handbook experts team up to explain the many innovative ways psychology is being applied to promote social justice the wide ranging three volume work addresses such significant issues as social justice ideology and critical psychology war and trauma poverty and classism environmental justice and well being and suffering it showcases approaches for integrating social justice into psychology and it examines psychology s application of social justice within special populations such as sexual minorities youth women disabled persons prisoners older adults people of color and many others chapter authors represent a diversity of perspectives making the handbook an ideal resource for those who want information on a specific concern as well as for those looking for an introduction to the subject as a whole combining the practical with the theoretical the work provides culturally sensitive tools that can effectively combat injustices locally and globally

liberation psychology theory method practice and social justice guides readers through the history theory methods and clinical practice of liberation psychology and its relation to social justice activism and movements

liberation psychology is an approach that aims to understand wellbeing within the context of relationships of power and oppression and the sociopolitical structure in which these relationships exist liberation practices towards emotional wellbeing through dialogue explores how wellbeing can be enhanced through dialogue which challenges oppressive social relational and cultural conditions and which can lead to individual and collective liberation taiwo afuape and gillian hughes have brought together a variety of contributors from a range of mental health professions and related disciplines

working in different settings with diverse client groups liberation practices is a product of multiple dialogues about liberation practices and how this connects to personal and professional life experience contributors offer an overview of liberation theories and approaches and through dialogue they examine liberatory practices to enhance emotional wellbeing drawing on examples from a range of creative and innovative projects in the uk and usa this book clearly outlines what liberation practices might look like in the context of the historical development of liberation theory and the current political and cultural context of working in the mental health and psychology field liberation practices will have a broad readership spanning clinical psychology psychotherapy and social work

inequities still exist in today s society and this book advances awareness an equitable mindset and transformative change toward the goal of eliminating inequities and promoting inclusiveness and social justice racialized inequity is injustice or unfairness and exists when prejudice or discrimination based on any aspect of difference precludes access of certain groups to the resources and benefits of society this volume takes a new look at the psychology of inequity today have we progressed or regressed since the height of the civil rights movement of the 1960s through an examination of the motivations and beliefs behind inequities and injustices this text aims to answer this question and any others that a scholar or general reader interested in social inequities and multiculturalism may have chapters address the motives that sustain inequity and reflect on the beliefs and behaviors linked to implicit responses to threats of change and loss of privilege posed by the inclusion of others

foundations of islāmic psychology from classical scholars to contemporary thinkers examines the history of islāmic psychology from the islāmic golden age through the early 21st century giving a thorough look into islāmic psychology s origins islāmic philosophy and theology and key developments in islāmic psychology in tracing psychology from its origins in early civilisations ancient philosophy and religions to the modern discipline of psychology this book integrates overarching psychological principles and

ideas that have shaped the global history of islāmic psychology it examines the legacy of psychology from an islāmic perspective looking at the contributions of early islāmic classical scholars and contemporary psychologists and to introduce how the history of islāmic philosophy and sciences has contributed to the development of classical and modern islāmic psychology from its founding to the present with each chapter covering a key thinker or moment and also covering the globalisation of psychology the islāmisation of knowledge and the decolonisation of psychology the work critically evaluates the effects of the globalisation of psychology and its lasting impact on indigenous culture this book aims to engage and inspire students taking undergraduate and graduate courses on islāmic psychology to recognise the power of history in the academic studies of islāmic psychology to connect history to the present and the future and to think critically it is also ideal reading for researchers and those undertaking continuing professional development in islāmic psychology psychotherapy and counselling

this book examines the ways in which decolonial theory has gained traction and influenced knowledge production praxis and epistemic justice in various contemporary iterations of community psychology across the globe with a notable southern focus although not exclusively so the volume critically interrogates the biases in western modernist thought in relation to community psychology and to illuminate and consolidate current epistemic alternatives that contribute to the possibilities of emancipatory futures within community psychology to this end the volume includes contributions from community psychology theory and praxis across the globe that speak to standpoint approaches e g critical race studies queer theory indigenous epistemologies in which the experiences of the majority of the global population are more accurately reflected address key social issues such as the on going racialization of the globe gender class poverty xenophobia sexuality violence diasporas migrancy environmental degradation and transnationalism globalisation and embrace forms of knowledge production that involve the co construction of new knowledges across the traditional binary of knowledge

producers and consumers this book is an engaging resource for scholars researchers practitioners activists and advanced postgraduate students who are currently working within community psychology and cognate sub disciplines within psychology more broadly a secondary readership is those working in development studies political science community development and broader cognate disciplines within the social sciences arts and humanities

action research is a term used to describe a family of related approaches that integrate theory and action with a goal of addressing important organizational community and social issues together with those who experience them it focuses on the creation of areas for collaborative learning and the design enactment and evaluation of liberating actions through combining action and research reflection and action in an ongoing cycle of cogenerative knowledge while the roots of these methodologies go back to the 1940s there has been a dramatic increase in research output and adoption in university curricula over the past decade this is now an area of high popularity among academics and researchers from various fields especially business and organization studies education health care nursing development studies and social and community work the sage encyclopedia of action research brings together the many strands of action research and addresses the interplay between these disciplines by presenting a state of the art overview and comprehensive breakdown of the key tenets and methods of action research as well as detailing the work of key theorists and contributors to action research

this volume offers practical strategies to support inclusive campus development in 21st century us higher education contributors from various backgrounds offer insights for practices that move dei efforts from the superficial and into the very fabric of how academia functions
