this work looks back at the role bihar played in the struggle for india s independence in the first decade after its separation from bengal as a province in 1912 particularly through the archival material contained in the contemporary confidential government files preserved in the bihar state archives patna it uncovers some significant facts and dimensions like rumor mongering adopted as a mode of struggle by the revolutionaries against british rule during world war i and the establishment of parallel administration at different levels during the non cooperation movement by its local leaders in bihar while it scrutinizes the sorrowful tales of sufferings of the indian people under british colonial rule it also raises questions about how the hate politics and hate crimes under bjp s rule particularly against minorities and dalits can be justified as less brutal than the brutalities committed under the tyrannical british rule or how the targetted use of draconian laws or law enforcing agencies against those who question its unconstitutional and repressive policies and communal or rather hate politics can be justified as just in independent india under democratic government and the use of similar laws or law enforcing agencies as repressive and unjust under despotic british rule

moving beyond the existing scholarship on language politics in north india which mainly focuses on hindi urdu debates language politics and public sphere in north india examines the formation of maithili movement in the context of expansion of hindi as the national language it revisits the dynamic hierarchy through which a distinction is produced between major and minor languages the movement for recognition of maithili as an independent language has grown assertive even when the authority of hindi is resolutely reinforced the book also examines increasing politicization of the maithili movement from hindi maithili ambiguities and antagonisms to territorial consciousness and subsequently to separate statehood demand along with the persistent popular indifference mithilesh jha examines such processes historically tracing the formation of maithili movement from mid nineteenth century until its inclusion into the eighth schedule of the indian constitution in 2003

muslim society in india remains in a state of denial when it comes to nikah halala the quran allows divorce twice after that the spouses either live together happily or divorce gracefully nowhere does it allow marriage with a pre arranged date of divorce to a new man only to go back to the former husband nikah halala sleeping with a stranger is a probing exercise that exposes the cycle of instant triple talaq followed by a fake marriage which too ends with another instant triple talaq that allows the woman to marry the former husband while the holy book does not mention instant triple talaq this tradition is unique to the indian subcontinent that claims to bring squabbling couples together but ends up making a mockery of the faith and punishes women for the crimes of men the first ever book to talk of the subject nikah halala presents the sordid reality of mock marriages against the background of quranic injunction on the subject and exposes the departure in practice from the

teachings of the holy book that gives divorced women complete freedom to follow their path
